

CalPERS Supplemental Income **457 Plan**

Your choice, simplified.
Enrollment Kit

We are CalPERS

CalPERS is the largest public pension fund in the U.S., with assets of approximately \$260 billion as of June 30, 2013. The retirement system administers retirement benefits for more than 1.6 million current and retired California State, public school, and local public agency employees and their families on behalf of more than 3,000 public employers in the state. CalPERS also administers health benefits for 1.3 million enrollees and offers additional programs, including a deferred compensation retirement savings plan, member education services, and an employer trust for post-retirement benefits.

Your CalPERS Supplemental Income 457 Plan.

All employees whose employers have adopted the CalPERS Supplemental Income 457 Plan (the "Plan") are eligible to join the Plan and there are currently no minimum service requirements to fulfill. The Plan is a voluntary savings program that allows you to defer any amount, subject to annual limits, from your paycheck on a pre-tax basis. In addition, your contributions and their earnings, if any, can benefit from the power of tax-deferred compounding. What this means is that you don't pay income taxes on your investments or earnings until you start to take withdrawals, usually in retirement.

Designed with the participants' interest in mind

- Promotes smart investing principles
- Easy payroll deduction of contributions
- Contributions and earnings can benefit from the power of tax-deferral
- Withdrawals are taxed as ordinary income when distributions begin
- Simplified fee structure
- Experienced retirement educators help participants define retirement goals, integrating them with existing defined benefit planning
- Access to financial learning resources, provided by ING Institutional Plan Services
 - Tools for retirement planning, personal finance, estate planning and family finance.

This Guide is intended to introduce you to general investment concepts and help you understand the investment options available to you as a participant in the Plan. This Guide is not intended to provide investment advice. You should consider consulting with an outside investment advisor prior to investing.

Plan Forms

All forms noted in this brochure can be found in the Forms section of the Plan Website at <https://calpers.ingplans.com>, or obtained by calling the Plan Information Line at **(800) 260-0659**.

Your Personal Identification Number (PIN)

You will receive a PIN in the mail shortly after you complete the enrollment process. You will need your PIN to access your account information and to make transactions either online or through the Plan Information Line.

PIN Reset Capabilities

When you log on to the Plan Website for the first time, you will be prompted to establish a Username and to choose security questions to establish future PIN reset capabilities in case you forget or misplace your PIN in the future. If you misplaced your PIN and haven't established PIN reset capabilities, there are two ways to obtain a new PIN.

- Online at <https://calpers.ingplans.com>, click on the link *Forgot Your PIN?* in the User Login box.
- Call **(800) 260-0659**, and provide your Social Security number.

Your PIN will be mailed to your address on record within three business days.

Need Assistance?

Participant Service Representatives* are available Monday – Friday, 6:00 a.m. to 5:00 p.m. Pacific Time (except stock market holidays) to assist you with transactions, information about your account or any other general CalPERS Supplemental Income 457 Plan questions and requests by calling the Plan Information Line at **(800) 260-0659**.

* Participant Service Representatives are Registered Representatives of ING Investment Advisors, LLC (member SIPC).

Ready to enroll?

Complete the *Employee New Enrollment Form* and the *Beneficiary Designation* forms, following the form instructions carefully; return both to your Personnel/Payroll Department and you're on your way!

Preparing your action plan.

It's never too late to start, and it's never too small an amount to invest when it comes to planning for your retirement.

You may enroll in the Plan at any time, as there is no waiting or enrollment period. Your contributions are made through easy payroll deductions and the Plan is flexible so you may stop, increase or decrease your contributions as often as your employer allows without penalty or cost.

The Target Retirement Date Funds have been designated as the default investment under the Plan. IF YOU DO NOT MAKE AN AFFIRMATIVE INVESTMENT ELECTION PRIOR TO THE DATE THE FIRST CONTRIBUTION IS DEPOSITED INTO YOUR ACCOUNT, YOUR CONTRIBUTIONS WILL BE INVESTED IN THE APPROPRIATE TARGET RETIREMENT DATE FUND, BASED ON YOUR DATE OF BIRTH AND ASSUMING YOU WILL RETIRE AT AGE 60. Prior to investing you should carefully review all fund information and objectives and consider consulting with an outside investment adviser. Investing involves risk, including possible loss of principal.

Tips to planning.

Unexpected challenges will likely cross your path at some point or another over your career, but by creating an Action Plan, you may have an easier time staying on track to meet your retirement goals over time. Here are a few things to consider as you get started:

✔ Maintain an emergency fund.

The Plan was not designed to be a short-term savings vehicle or to replace your household emergency fund. Therefore, it is important that you have another source of savings that you can access easily for emergencies.

- Most experts suggest having three to six months of your living expenses set aside in cash.

✔ Be consistent.

Consistency is important to help you achieve your retirement goals.

- Once you select your contribution amount, contributions to the Plan are made every pay period via payroll deduction, making the Plan a consistent and convenient way to save.

✔ Make small changes where you can.

Keep a spending journal for a few weeks to help you track where your money is going and to identify saving opportunities, such as:

- Bring your lunch to work.
- Brew your own coffee.
- Drink tap water instead of buying bottled water.
- Rent a DVD and pop your own popcorn on Saturday night.

✔ Keeping it together!

If you have an eligible IRA or retirement plan from a previous employer, you may want to consider moving those funds into your Plan account. Just complete a *Rollover Contribution Form* to start the transfer process. Assets rolled over from another plan may be subject to additional restrictions.

STEP ONE: How much will you need?

Today, many financial experts agree that you will need 70% or more of your current income to maintain your current lifestyle in retirement. Your long-term strategy not only has to work up to the day you retire, it will most likely need to continue generating growth and income throughout your retirement.

So, if you have 30 years before you retire, and you live another 30 years after you retire, you're looking at creating and maintaining a 60-year investment strategy!

Chances are you're going to need to rely on personal savings, over and above your Social Security and defined-benefit pension benefits, when it comes to meeting your retirement income goals. Participating in the CalPERS Supplemental Income 457 Plan is another way to save for your retirement goals.

STEP TWO: How much can you save?

Deciding how much to save is a personal decision. Check out the "My Retirement Outlook" calculator in the Resource Center of the Plan Website. It can help you determine how much you can really afford to save from each paycheck.

Don't put off until tomorrow what you can do today.

You might think you can't afford to put much aside, but making small changes now could make a big difference over the long term. By investing early your money has more time to work for you.

The cost of waiting.

This chart demonstrates the potential power of time vs. the potential cost of waiting.

This hypothetical example assumes a 6% effective annual interest rate and no withdrawals. For illustrative purposes only, to show how the number of years invested in the Plan could affect participant account values. Not intended as a guarantee of past or future performance of any security. Hypothetical assumptions are not guaranteed. Your actual results may vary. Actual rate of return may be more or less than shown and will depend upon a number of different factors, including a participant's choice of investment options. Any fees, expenses or charges that may be associated with the Plan are not considered in this illustration. Plans having these charges would reflect lower net returns. Systematic investing does not ensure a profit nor guarantee against a loss in declining markets. You should consider your financial ability to consistently invest in up as well as down markets. Consider your personal investment horizon and current as well as anticipated income bracket when making an investment decision. Changes in tax rates and tax treatment of investment earnings may impact results.

Pay yourself first with Plan contributions.

This chart demonstrates the potential added value of contributing more money over time.

This hypothetical example assumes bimonthly employee contributions and a 6% average annual return. Any fees, expenses or charges that may be associated with the Plan are not considered in this illustration. Plans having these charges would reflect lower net returns. Hypothetical assumptions are not guaranteed. Systematic investing does not ensure a profit nor guarantee against a loss in declining markets. You should consider your financial ability to consistently invest in up as well as down markets.

Incentives to help you save.

IRS Saver's Credit

To encourage low- and moderate-income individuals to save, the Federal government offers a tax credit for contributions to eligible retirement plans. You may be eligible for a credit on your federal taxes of up to \$2,000. If you take this tax credit you can still deduct your contributions to qualified retirement savings plans as allowed under current law. To find out more information or to see if you qualify, check the Plan Website or call the Plan Information Line.

Catch-Up Provisions

Age 50 Catch-Up — allows a participant who is at least age 50 before the end of the tax year to make additional contributions of \$5,500, for a maximum of \$23,000.

Special 3-Year Catch-Up — allows a participant who meets special conditions and has not been contributing the maximum in previous tax years to contribute up to twice the maximum annual contribution amount during the three years prior to his or her Normal Retirement Age. The current annual limit is \$35,000 or the amount of Catch-Up credit available to you, whichever is less.

IRS regulations state the Age 50 Catch-Up Provision cannot be used in the same calendar year as the Special 3-Year Catch-Up Provision.

2014 Maximum Annual Contribution Limits

100% of income, up to \$17,500

Age 50 Catch-Up: \$5,500

Special 3-Year Catch-Up: \$35,000

Annual IRS contribution limits are subject to change.

The Bottom Line.

Start planning for your retirement early!

- **Just starting out in your career?** You might think you can't afford to put anything aside, but by investing early, your investment has the opportunity to grow tax-deferred over a longer period. In the future you may want to consider increasing your contributions as your salary increases.
- **Nearing retirement?** When starting later in life it's important to consider your investment and tax-shelter strategies carefully. Consider consulting with an investment and tax advisor prior to making investment decisions.

STEP THREE: What's your investment strategy?

When it comes to investing, people have different levels of risk tolerance and experience. There are some that have limited knowledge in actively developing an investment portfolio and there are those who prefer to select their own mix of investments.

Offering a simple approach to investing, the Plan's investment lineup is organized into choices designed to match your level of interest in investing.

Your choice, simplified.

Your Choice	Your Involvement	The Investment Approach
Help-Me-Do-It. <i>Target Retirement Date Funds — A diversified portfolio in a single fund.</i>	<p>You select the fund, CalPERS manages the asset allocation of the fund.</p> <p>This approach is convenient if you don't have the desire, time or experience to actively select your asset allocation and manage it over time.</p>	<p>A series of target retirement date funds offer a diversified portfolio in one fund. Each fund invests in a well-diversified portfolio of a mix of index funds that is automatically rebalanced to a less aggressive mix of investments to become more conservative as it approaches its target date.</p>
Do-It-Myself. <i>Core Funds — A carefully selected list of passively managed investment options.</i>	<p>You select your funds and actively design and manage your asset allocation over time.</p> <p>If you like to design and actively manage your own asset allocation based on your individual circumstances, you can choose from a carefully selected list of core investment fund options.</p>	<p>CalPERS has selected a set of six index funds in different asset classes (stocks, bonds, and cash equivalents) so you can diversify your portfolio based on your personal situation.</p>

Self-Managed Account (If available)

Your employer must adopt the Self-Managed Account (SMA) option in order for you to participate. The SMA is a fee-based brokerage account that offers you the ability to invest in mutual funds and Certificates of Deposit (CD's). You have to apply for and set up a separate SMA account before you may trade mutual funds. Please confirm with your employer if they have adopted the SMA option; if so you may obtain the SMA application package from them. Please note, however, the mutual funds are not selected, reviewed or monitored by CalPERS.

Participant Fees

We strive to provide investments and services at a reasonable cost using a simple fee schedule with an overall objective of minimizing expenses. There are costs associated with investing in the underlying investment fund options offered under the Plan. Each of the investment fund options currently have an annual fee of less than one percent, prorated daily based on your account balance. CalPERS periodically reviews fees and operating costs, and changes to fees and costs may be made at any time.

More information about the fees associated with each investment offering can be found in the Fund Fact Sheets or on the Plan Website.

Target Date Funds vs. Index Funds

What are target date funds?

Target date funds are broadly diversified funds which have a predetermined underlying asset mix that are intended to adjust over time toward a more conservative allocation until the selected target date.

You simply choose a target date fund based on the date you expect to begin withdrawing money for retirement. While target date funds are intended to offer a simpler investing approach, you should continue to monitor your Plan investments and make adjustments as needed.

What are index funds?

Index funds are designed to produce results that mirror the performance of the index they track by buying and holding the stocks or bonds included in the index. That's why these funds are often described as passively managed. If you want to invest in a certain asset class, such as the stocks or bonds of large U.S. companies, an index fund gives you a convenient way to invest without having to choose individual stocks or bonds.

What is an index?

A fund's performance is usually compared with its market benchmark or index. An index is a grouping of stocks or bonds selected to represent a particular market. The best-known index is the Dow Jones Industrial Average that follows 30 of the largest U.S. companies. The Standard & Poor's 500 Index widens the range to include 500 of the largest U.S. companies for a broader reading of the market. An index is not managed and cannot be invested in directly.

Investing 102

The Asset Classes

There are three basic asset classes and each has specific risk and return features to consider. There are also asset allocation investments, like the target date funds, that generally contain a mix of any of the three asset classes.

Asset Class	Benefit	Risk
Asset Allocation	Professionals make the diversification, asset allocation and rebalancing decisions	Shifting to a conservative mix over time helps manage risk, but does not guarantee earnings growth
Asset Class	Benefit	Risk
Cash Equivalents	Designed to protect original investment or principal	May not keep pace with inflation over time
Bond	Generally offer greater income potential than short-term investments and not as much risk as stocks	Lower growth potential
Stocks	Historically, stocks have provided greater long-term returns than other asset classes	Due to market volatility the value of stocks can go up and down over short periods of time

Investing 103

Investment risk vs. inflation risk

Investment risk is generally associated with the potential that investments may go down in value as a result of market volatility, though other risks exist. Stocks are generally considered riskier investments because they tend to fluctuate in value more than conservative investments like bonds. Conservative investments may help reduce investment risk, but over the long term they can expose you to another kind of risk — inflation risk. When investments are earning less than the rate of inflation, they are actually losing value.

The importance of asset allocation & diversification

Combining different types of investments through asset allocation and diversification may help you manage risk and maximize your return potential by smoothing out market fluctuations, while still taking advantage of the market's potential for higher returns.

Asset allocation involves assigning specific percentages of your investments to different asset classes according to your financial goals, risk tolerance and time horizon. Diversification is a risk management technique that mixes a variety of investments within a portfolio. It involves distributing your money among different securities, sectors, industries and strategies within a number of asset classes. Diversification through asset allocation does not ensure a profit or protect against loss.

Help-Me-Do-It

**Target Retirement Date Funds —
A diversified portfolio in a single fund.**

CalPERS Target Date Funds

The target date funds offer the ease and convenience of a professionally managed, diversified portfolio for participants who don't have the time, desire or expertise to choose an appropriate asset mix for their situation and actively manage it over time.

Once you select your target date fund, the fund's underlying asset mix will automatically adjust over time so you don't have to actively manage your allocation after making the initial investment decision.

Funds that evolve over time.

Over time, the investment mix of each fund gradually shifts from a greater concentration of higher-risk investments (such as stock funds) to a greater concentration of lower-risk investments (such as bond funds). The investment mix automatically becomes more conservative as the target date fund approaches its target date, so you don't have to actively manage the mix of individual investments over time.

For illustration purposes only. Actual fund allocations will vary. Please refer to the individual fund fact sheets.

Picking your target date fund.

Simply choose the fund with the target date that is closest to the year you expect to begin withdrawing money from your Plan account. For example, if you were born in 1965 and expect to retire at age 60, you would select the CalPERS Target Retirement 2025 Fund.

If your birthdate is....	Your CalPERS Target Retirement Date Fund is...
On or before 1952	CalPERS Target Retirement Income Fund
On or between 1953 - 1957	CalPERS Target Retirement 2015 Fund
On or between 1958 and 1962	CalPERS Target Retirement 2020 Fund
On or between 1963 and 1967	CalPERS Target Retirement 2025 Fund
On or between 1968 and 1972	CalPERS Target Retirement 2030 Fund
On or between 1973 and 1977	CalPERS Target Retirement 2035 Fund
On or between 1978 and 1982	CalPERS Target Retirement 2040 Fund
On or between 1983 and 1987	CalPERS Target Retirement 2045 Fund
On or between 1988 and 1992	CalPERS Target Retirement 2050 Fund
On or after 1993	CalPERS Target Retirement 2055 Fund

Based on assumption that retirement age is 60.

The "target date" is the approximate date when an investor plans to start withdrawing their money. When their target date is reached, they may have more or less than the original amount invested. For each target-date portfolio, until the day prior to its target date, the portfolio will seek to provide total returns consistent with an asset allocation targeted for an investor who is retiring in approximately each portfolio's designated target year. On the target date, the portfolio will seek to provide a combination of total return and stability of principal. There is no guarantee that any investment option will achieve its stated objective. Principal value fluctuates and there is no guarantee of value at any time, including the target date. Asset allocation, diversification and rebalancing do not ensure a profit or protect against loss in declining markets.

While target date funds are intended to offer a simpler investing approach, you should continue to monitor your Plan investments and make adjustments as needed.

Do-It-Myself

Core Funds – A carefully selected list of passively managed investment options.

Core Funds

If you like to pick, actively manage and design your asset allocation, you can choose from a carefully selected list of core investment fund options. CalPERS has selected a set of six index funds in different asset classes (stocks, bonds, and cash equivalents) so you can diversify your portfolio based on your personal situation.

Index Fund	Asset Class
SSgA U.S. Government Short Term Investment Fund	Cash Equivalent
SSgA Real Asset Fund	Inflation Protection
SSgA U.S. Short-Term Government/ Credit Bond Index Fund	Bond
SSgA U.S. Bond Index Fund	Bond
SSgA Russell All Cap Index Fund	U.S. Stocks
SSgA Global All Cap Equity ex U.S. Index Fund	Global Stocks

Building your investment portfolio.

It is important for you to determine how long you plan to keep your money invested, and your willingness to stay invested during market ups and downs, and build a portfolio appropriate for that strategy.

When developing your investment strategy, you need to consider:

- How much to save and invest today.
- Your investment time horizon.
- Your risk tolerance.

Once you determine the answers to these questions you can create an investment mix that will help you work toward your objective.

A reminder about asset allocation.

Asset allocation helps to reduce investment risk by spreading your money among different investments, or across the main asset classes. Combining different types of investments, i.e. stocks, bonds and cash equivalents, may help you manage risk and maximize your return potential by smoothing out market fluctuations, while still taking advantage of the market's potential for higher returns. However, diversification through asset allocation does not specifically ensure a profit or protect against loss.

Be aware of inflation risk.

When you're ready to retire, you'll most likely be living in a much more expensive world than today. Conservative investments (like bonds) may help reduce volatility risk, but over the long term they can expose you to inflation risk. When investments are earning less than the rate of inflation, they are actually losing value.

Confirmation of changes

You will be mailed a confirmation within three business days following any changes made to your account. If you do not receive a confirmation in a timely manner, please contact the Plan Information Line to ensure that your changes were properly made to your account. It is your responsibility to monitor these changes and to promptly notify a Participant Service Representative by calling **(800) 260-0659**, Monday - Friday, 6:00 a.m. to 5:00 p.m. Pacific Time (except stock market holidays) if a change to your Plan account was not implemented correctly.

Features of the CalPERS 457 Plan.

Distribution Flexibility

You may begin taking distributions from your CalPERS account at any time once you retire or separate from employment. The Plan offers you the flexibility to receive:

- a lump sum
- a partial lump sum
- payments for a specific time period
- payments based on your life expectancy or the combined life expectancy of you and your spouse.
- to purchase an annuity.

There is no early withdrawal penalty in the CalPERS Supplemental Income 457 Plan. You may take a distribution at anytime once you have separated from employment.

Required Minimum Distributions

Federal tax law requires you to begin taking distributions from your CalPERS Supplemental Income 457 Plan account no later than April 1 of the year following the year you reach age 70½, unless you are still employed. If you remain employed beyond April 1 following the year in which you reach age 70½, payment must begin by April 1 in the year following the year you end your employment.

Tax Liability on Distributions

Distributions are treated as ordinary income in the year the money is paid and are subject to federal and state income taxes. 20% is withheld for federal tax purposes, as well as 2% for state taxes for California residents, at the time of payment on all distributions. A rollover to another eligible retirement plan or a traditional IRA is not subject to tax withholding.

Purchasing Service Credit

You may choose to use your investments in the Plan to purchase Pension Service Credit, if eligible.

In-service Withdrawals

Generally, you cannot withdraw money from your Plan account while you are still employed by your employer with the exception of:

- **Unforeseeable Emergency Withdrawals**
Under qualifying circumstances you may make an emergency withdrawal prior to separation from service.
- **Loan Privilege**
You may borrow from your Plan account balance to assist you in meeting your financial needs only if your employer has adopted the Loan Provision of the Plan. Additional fees apply.

Guidelines & Forms

Guidelines on Distributions, Tax Liability and In-service withdrawals are available on the Plan Website.

All forms noted in this brochure can be found in the *Forms* section of the Plan Website at <https://calpers.ing.com>, or obtained by calling the Plan Information Line at **(800) 260-0659**.

Questions & Requests

CalPERS Participant Service Representatives* are available Monday – Friday, 6:00 a.m. to 5:00 p.m. Pacific Time (except stock market holidays) to assist you with transactions, information about your account or any other general CalPERS Supplemental Income 457 Plan questions and requests.

CalPERS 457 Plan Target Retirement Date Funds

Proposed (revised) Fact Sheet reflects new asset allocations of each target retirement date fund. New allocations will become effective October 7, 2013.

PERS

October 7, 2013

Overview

Target Retirement Date Funds (the "Fund" or "Funds") are a series of diversified funds, each of which has a pre-determined underlying asset mix that will adjust over time toward a more conservative allocation until the selected target date. The year in the Fund name refers to the approximate year (the "target date") you intend to retire.

The CalPERS Supplemental Income Plans offer ten distinct Target Retirement Date Funds as investment options, utilizing the concept of diversification through asset allocation. You may select the Fund that most closely matches the year you plan on retiring.

Advantages

Many participants don't have the time, interest or expertise to choose an appropriate asset mix for their situation and manage it over time. By selecting one of the Funds, you receive a portfolio that is diversified across a range of asset classes and investment styles based on your time horizon until retirement. This Fund will automatically adjust its underlying asset mix over time so you don't have to actively manage your allocations after you make the initial investment decision.

Strategic Objective

The strategic objective of the Funds is to provide a diversified portfolio in a single Fund approach, with an automatically adjusting mix of investments designed for growth in the early years and gradually becoming more conservative to protect value and provide liquidity as you approach retirement. The targeted asset mixes are designed to reduce volatility through diversification, especially as each Fund approaches its target date. However, there is no guarantee the Fund will achieve its strategic objective.

Investment in the Target Retirement Date Funds are subject to the risk of the underlying portfolios. An investment in the Funds is not guaranteed at any time, including on or after the target date. Please see page 8 for "Additional Disclosures".

Target Retirement Date Funds Glidepath

Over time, the CalPERS Target Retirement Date Funds are designed to gradually reduce allocations to equities and increase allocations to fixed income and cash according to the following glidepath.

Investment Strategy

The CalPERS Board of Administration and Investment Committee direct the investment strategy and investments of the Supplemental Income Plans. Under their direction, the Funds are invested in underlying portfolios that use a "passive" or "indexing" approach to investing, by which the portfolio manager attempts to match, before expenses, the performance of the benchmark. State Street Global Advisors (SSgA) serves as the manager of the underlying portfolios, and the CalPERS Investment Office provides oversight of the asset allocation.

Asset allocations vary among Funds, and the Funds are intended to become more conservative over time as they approach their target date. The CalPERS Board reserves the right to change the target asset allocations, asset classes and benchmarks at any time.

After the Funds reach their target date year (and thus their most conservative asset allocation), they will merge with the Target Income Fund. The Target Income Fund generally maintains a fixed asset allocation and has the highest percentage of fixed income and cash, which is intended to provide you access to more liquid funds. Please see page 7 for current target asset allocations of the Target Income Fund.

Asset Classes

Each Fund may be invested through the underlying portfolios in four broad asset classes: equity, fixed income, cash/cash equivalents and real assets. The equity asset class includes domestic and international portfolios.

The CalPERS Investment Committee establishes target allocations for each asset class per Fund. Annually, CalPERS reviews and adjusts target asset allocations as presented in the CalPERS Statement of Investment Policy for Supplemental Income Plans, CalPERS Target Retirement Date and POFF Funds. Adjusted allocations take effect October 1.

You may view CalPERS investment policies by visiting: www.calpers.ca.gov.

Fund and Portfolio Benchmarks

Fund performance is measured against customized benchmarks. The benchmark for each Fund is a composite of asset class benchmarks, weighted according to each Fund's policy target asset allocation weights. Additionally, each asset class invests in various underlying portfolios, the performance of which is gauged against corresponding benchmarks indicated in the table below.

Asset Class Investment Strategy			
Asset Class	Asset Class Component	Underlying Portfolio	Underlying Benchmark
Equity	U.S. Equity	SSgA Russell All Cap Index Fund	Russell 3000 Index
	International Equity	SSgA Global All Cap Equity ex-US Index Fund	MSCI ACWI ex-USA IMI Index
Fixed Income	U.S. Fixed Income Securities	SSgA U.S. Bond Index Fund	Barclays Capital U.S. Aggregate Bond Index
Real Assets	Commodities Equities - Natural Resources Real Estate Investment Trusts ("REITs") Treasury Inflation-Protected Securities ("TIPS")	SSgA Real Asset Fund	The fund uses a custom benchmark which is comprised of: <ul style="list-style-type: none"> ● Dow Jones UBS Roll Select Commodity Index ● S&P Global LargeMidCap Commodity and Resources Index ● Dow Jones U.S. Select REIT Index ● Barclays U.S. TIPS Index
Cash or Cash Equivalents	Cash or Highly Liquid Securities	SSgA U.S. Government Short Term Investment Fund	Bank of America Merrill Lynch 3-Month US Treasury Bill

For more information on the Fund's underlying portfolios, please refer to SSgA fact sheets located at <https://calpers.ingplans.com>.

1 The Target Income Fund has an inception date of December 1, 2008.

2 See page 2 for asset class and benchmark information.

Current Income Fund Target Allocations

Designed for an investor who has retired or has a very low risk tolerance. It is made up of primarily cash (or cash equivalents) and fixed income securities, with a smaller percentage of domestic and international equity for additional growth potential.

Additional Disclosures

Information Accessibility

The Target Retirement Date Funds consist of assets managed by CalPERS in an account specifically for CalPERS Plans. Since the Funds are not mutual funds, a prospectus is not available nor is information available from a newspaper source. This summary is designed to provide descriptive information.

You may access information about your account, including fees, expenses and performance by visiting the Plan website located at <https://calpers.ingplans.com>. Also available on this website is more information on the Fund's underlying portfolios. You may also contact the Plan information hotline at (800) 260-0659.

What You Own

You own units of the Funds' portfolio that invest in stocks, bonds, real assets and cash equivalents. You do not have direct ownership of the securities in the underlying portfolio.

Fund Selection

When choosing a Fund, you should not base your selection solely on age or retirement date. For your long-term retirement security, you should give also careful consideration to your risk tolerance, overall financial condition, and individual circumstances.

Price

The unit value of the Funds change daily, based on the market value of the underlying securities. Just as prices in individual securities fluctuate, the Fund's unit values change with market conditions.

Fund Performance

Performance data shown represents past performance and is no guarantee of future results. The investment return and principal value of an investment will fluctuate so that an investor's units, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the historical performance data shown. For current performance information, including performance to the most recent month-end, please visit the Plan website at: <https://calpers.ingplans.com>.

Expenses

Expenses are an integral part of investing. To pay for the administration and management of a Fund, each investor is charged a fee, which is calculated as a percentage of the amount the investor has in the Fund. Even if the Fund loses money during a period, the fee is still charged. Although fees and expenses may seem relatively small, their effect on performance over time may be substantial. However, fees and expenses are only one of many factors that participants should consider when making investment decisions.

Fees

Estimated total annual operating expenses of the Target Retirement Date Funds range from 0.42% to 0.44%. This equates to \$4.20 to \$4.40 per \$1,000 invested. The Funds' estimated total annual operating expenses reflect the estimated amount of fees and expenses incurred indirectly by each Fund through the underlying portfolios. The fees and expenses of the underlying portfolios are in turn estimated based on SSgA investment management, ING recordkeeping, and SSgA capped operating expenses. CalPERS periodically reviews these fees and operating expenses, and changes may be made at any time.

More detailed information about plan fees and expenses may be found on the "CalPERS Supplemental Income 457 Retirement Plan Document Summary" found at <https://calpers.ingplans.com>.

Notes About the Funds' Risk

All investing is subject to risk. Investing in the Funds involves a number of investment risks. Please refer to the Risk Scale underneath the glidepath on page 1 and also under each Fund's pie chart to review each Fund's intended level of risk. In addition, you should carefully read the risks contained in SSgA fact sheets for the underlying portfolios of the Fund, which may be obtained at <https://calpers.ingplans.com>.

Although CalPERS designed the asset allocation of the Funds, it is possible that the Funds could lose money due to less than optimal or poor asset allocations. The Funds may also be exposed to a variety of risks including equity market risk, fixed income market risk, interest rate risk, and organizational risk associated with the underlying firms. Other risks factors may include sudden changes in interest rates or changes in the expectation of future interest rates, sudden changes in inflation or inflation expectations, a deterioration in U.S. or non-U.S. economic conditions or expectations for those future conditions and other associated risks impacted by unexpected changes in legislative, regulatory or tax policy, and other related risks.

The Funds are subject to the risks of the underlying portfolios. The risks of the underlying portfolios depend on the types of securities held by the portfolios and the management style of the portfolios. Generally, among asset classes stocks are more volatile than fixed income securities or short-term instruments. Asset allocation is a method of diversification which positions assets among major investment categories. This method is used in an effort to manage risk and enhance returns. However, you may lose money by investing in the Funds, including losses near and following retirement, and there is no guarantee that the Funds will provide adequate retirement income. Diversification does not guarantee a profit or protection against loss. The Funds are not guaranteed by CalPERS nor by the State of California. CalPERS encourages investors to seek the advice of well-qualified financial and tax advisors, accountants, attorneys and other professionals before making any investment or retirement decision.

CalPERS Supplemental Income 457 Plan SSgA Real Asset Fund - Class A

SSgA Real Asset Fund Class A represents units of ownership in the SSgA Real Asset Non-Lending Series Fund.

The Fund seeks to offer broad, low cost exposure to the commodities futures markets, U.S. commercial real estate, natural resource stocks and U.S. Treasury Inflation Protected Securities.

Investment Objective

The SSgA Real Asset Fund (the "Fund") seeks to provide a total investment return to approximate as closely as possible, before expenses, the performance of a custom index (the "Index") over the long term. The Fund seeks to approximate its custom benchmark, which is comprised of 20% Dow Jones-UBS Roll Select Commodity IndexSM, 35% S&P[®] Global LargeMidCap Commodity and Resources Index, 20% Dow Jones U.S. Select REIT IndexSM, and 25% Barclays US TIPS Index.

Investment Strategy

SSgA allocates the Fund's assets among the asset classes represented in the Strategy's benchmark, rebalancing the Fund's exposures quarterly.

SSgA implements the Fund's asset allocations through investments in passive investment vehicles, which typically attempt to replicate the returns of a specific index or group of indices. These will typically include investment pools (which may, but will not necessarily, be registered under the Investment Company Act of 1940, as amended) managed or sponsored by SSgA or its affiliate.

The Fund, or any of the investment pools in which it invests, may hold a portion of its assets in cash and cash instruments, including short-term investment vehicles managed by SSgA or an affiliate. SSgA will not normally enter into foreign currency exchange transactions for the Fund.

The Fund's return may not match the return of its custom benchmark index.

Key Facts

- Is passively managed; will not short sell securities
- May use futures and other derivatives
- Is not a leveraged strategy
- May invest in other investment funds, including those managed by SSgA and its affiliates

The Fund is a collective investment trust and is not FDIC insured, nor is it an obligation or deposit of, or guaranteed by State Street Corporation, SSgA or its affiliates.

The Dow Jones U.S. Select REIT IndexSM

The Dow Jones U.S. Select REIT Index is a market capitalization-weighted index comprising publicly traded real estate investment trusts (REITs). No special purpose or healthcare REITs are included. The Index is rebalanced monthly and reconstituted quarterly. The Dow Jones U.S. Select REIT IndexSM is calculated and distributed by Dow Jones Indexes pursuant to an agreement with Dow Jones & Company, Inc. Dow Jones is the service mark of Dow Jones & Company.

The Dow Jones-UBS Roll Select Commodity IndexSM

The Dow Jones-UBS Roll Select Commodity Index is a broad based commodity index. It is comprised of 20 commodity futures contracts spread across five main commodity groups: Agriculture, Energy, Livestock, Industrial Metals and Precious Metals. The index aims to mitigate the effects of contango on index performance. For each commodity, the index rolls into the futures contract showing the most backwardation or least contango, selecting from those contracts with nine months or fewer until expiration.

S&P[®] Global LargeMidCap Commodity and Resources Index

S&P Global LargeMidCap Commodity and Resources Index is comprised of S&P Global LargeMidCap constituents that are related to three natural resources buckets: Energy, Materials and Agriculture. Each natural resources bucket is weighted approximately 33.33% providing a more balanced index. Standard & Poor's (S&P) Global LargeMidCap Commodity and Resources Index is a trademark of Standard & Poor's Financial Services LLC and has been licensed for use by State Street Bank and Trust. The Products are not sponsored, endorsed, sold or promoted by Standard & Poor's and Standard & Poor's makes no representation regarding the advisability of investing in the Products.

The Barclays U.S. TIPS Bond Index

The Barclays U.S. TIPS Bond Index is limited to U.S. Treasury Inflation Protected Securities (TIPS). The coupon payments and underlying principal are automatically increased to compensate for inflation as measured by the consumer price index (CPI). The maturities of the bonds in the index are more than one year. Barclays U.S. TIPS Bond Index is a trademark of Barclays, Inc.

Please see the Fee Disclosure section on the last page for a complete disclosure of the Fund's total operating expense ratio.

This fact sheet provides summary information about the Fund and is provided by the CalPERS Supplemental Income 457 Plan. It should be read in conjunction with the Fund's applicable Strategy Disclosure Document, which is available upon request. The Disclosure Document contains important information about the Fund, including a description of a number of risks associated with investing in the fund.

Performance

Total Returns	Fund	Benchmark
1 Month	-4.79%	-4.78%
Q2 2013	-7.69%	-7.63%
YTD	-7.66%	-7.48%
1 Year	-3.56%	-3.12%
3 Year	N/A	N/A
5 Year	N/A	N/A
7 Year	N/A	N/A
10 Year	N/A	N/A
Since Inception (1/31/2012)	-4.36%	-3.92%

The returns are provided net of the Fund's total expense ratio (found on the last page under the fee disclosure section of the fact sheet) and plan-level expenses, which may include, among others, investment management, recordkeeping, account administration, account manager, administrative, investment services and contingency reserve fees of 0.55% (as specified by the CalPERS Supplemental Income 457 Plan). Actual plan-level expenses will vary, and therefore, the actual performance that would have been experienced by a participant in the CalPERS Supplemental Income 457 Plan may have been lower than that shown. All returns greater than 1 year are annualized. Performance shown represents past performance. Past performance is not a guarantee of future results. Current performance may be lower or higher than the performance shown above. Fund returns reflect all items of income, gain and loss (other than any gain or loss attributable to the mark-to-market value of the securities lending cash collateral pool, as described below) and the investment of dividends and other income. Index returns are unmanaged and do not reflect the deduction of any fees or expenses. Index returns reflect all items of income, gain and loss and the reinvestment of dividends and other income.

The performance figures listed above do not take into account the mark-to-market unit value of the securities lending cash collateral pool held by the Fund. If the Fund marked-to-market units in the securities lending cash collateral pool, performance may be lower. Please see the last page for additional information about securities lending.

Risk Management

SSgA monitors the Fund's portfolio on an ongoing basis to minimize variances from its benchmark exposures, and initiates trades as part of the Fund's rebalancing process or to accommodate periodic cash flows.

Certain supplemental information may be rounded and may result in the total not adding up to 100.

Characteristics and allocations, if shown, are subject to change and should not be relied upon as current thereafter. This information should not be considered a recommendation to invest in a particular sector or to buy or sell any security shown. It is not known whether the sectors or securities shown will be profitable in the future.

The portfolio turnover rate is as-of the prior fiscal year-end ("FYE"). It is calculated consistent with Form N-1A by dividing the lesser amounts of purchases or sales of portfolio securities (i.e., underlying Fund shares) for the fiscal year by the monthly average value of the portfolio securities owned by the Fund during the fiscal year.

Important Message About Risk

There are risks involved with investing, including possible loss of principal. Generally, among asset classes stocks are more volatile than bonds or short-term instruments. Asset Allocation is a method of diversification which positions assets among major investment categories. This method is used in an effort to manage risk and enhance returns. It does not, however, guarantee a profit or protect against loss.

Additionally, an investment in the Strategy is subject to a number of risks, which include but are not limited to: Asset Allocation Risk, Cash Position Risk, Commodities Risk, Conflict of Interest Risk, Counterparty Risk, Credit Risk, Currency Risk, Defensive Investing Risk, Derivatives Risk, Emerging Markets Risks, Equity Risk, Extension Risk, Geographic Concentration Risk, Index Risk, Inflation-Indexed Securities Risk, Interest Rate Risk, Investment Risk, Issuer Risk, Large Shareholder Risk, Leveraging Risk, Limited Investment Program Risk, Liquidity Risk, Longevity Risk, Lower-Rated Securities Risk, Management Risk, Market Capitalization Risk, Market Disruption and Geopolitical Risk, Market Risk, Modeling Risk, Mortgage-Related and Other Asset-Backed Securities Risk, Non-U.S. Securities Risk, Portfolio Turnover Risk, Prepayment Risk, Property Securities Risk, Re-Balancing Policy Risk, REIT and REOC Risk, Repurchase Agreement Risk, Risk of Investment in Other Pools, Small and Micro-Cap Companies Risk, Tax Risk, U.S. Government Securities Risk, Variable and Floating Rate Securities, and Wealth Accumulation Shortfall Risk. You should refer to the Fund's Disclosure Document for a complete description of the risks of investing in the Fund.

Risk management does not promise any level of performance or guarantee against loss of principal. SSgA encourages investors to seek the advice of well-qualified financial and tax advisors, accountants, attorneys and other professionals before making any investment or retirement decision.

About SSgA

The Fund is managed by State Street Global Advisors (SSgA), the investment management division of State Street Bank and Trust Company, and a global leader in providing investment management solutions to clients worldwide. To learn more about SSgA, visit our web site at www.ssga.com.

Additional Information

For more information on plan expenses and current performance information, including performance to the most recent month-end, please visit the Plan website at: <https://calpers.inplans.com>. You may also contact CalPERS at (800) 260-0659.

Fee Disclosure

The SSgA Real Asset Fund Class A (the "Fund") seeks to achieve its investment objective by making direct investments in securities or by making investments in other investment funds, including those managed by SSgA and its affiliates ("SSgA Funds"). The Fund indirectly bears a proportional share of the fees and expenses of the SSgA Funds in which the Fund invests ("Indirect Expenses") which may include, among others, investment management, audit, custody, administration, and legal fees. Additionally, the Fund incurs direct fees and expenses ("Direct Expenses") which may include, among others, custody, audit, administration, and legal fees. The investment management fee for Class I units of the Fund is assessed outside the Fund and not included as part of the Direct Expenses, a portion (which may vary) may be paid to third-parties or intermediaries for recordkeeping, asset servicing, sub-accounting and communication services to plans invested in the Fund. The Indirect Expenses combined with the Direct Expenses of the Fund (the "Total Annual Operating Expense Ratio") are not expected to exceed .05% annually. You should contact your Plan Administrator for a complete description of the fees and expenses applicable to Class I units of the Fund, including both the Total Annual Operating Expense Ratio and plan-level expenses, including the investment management fee.

The Total Annual Operating Expense Ratio of .05% reflects all indirect and direct fees and expenses associated with the Fund, but excludes plan-level expenses. Transaction costs (including, for example, brokerage costs, temporary investments in SSgA exchange traded funds, and taxes, if any) are not reflected in the Total Annual Operating Expense Ratio but are reflected in the net performance returns of the Fund. The investment manager does not assess or charge any fee in connection with the purchase or redemption of units of the Fund.

The following example is intended to help illustrate the impact of fees and expenses associated with an investment in the Class I units of the Fund (based upon the Total Annual Operating Expense Ratio and plan-level expenses of 0.55%, as specified by CalPERS Supplemental Income 457 Plan). It is intended to illustrate the hypothetical expense that you would incur over various time periods if you were to invest \$10,000 in the Class I units of the Fund. This example assumes that the Fund provides a return of 5% a year and that operating expenses of the Fund and the plan-level expenses remain the same. The results apply whether or not you redeem your investment at the end of the given time period.

Example Fees: 1 year - \$56.22; 3 years - \$176.29; 5 years - \$307.28; 10 years - \$689.28

The example outlined above was for illustrative purposes only and does not represent the actual fees and expenses or the past or future performance of the Fund. Actual future fees and expenses may be higher or lower than those shown.

Fees and expenses are only one of several factors that participants and beneficiaries should consider when making investment decisions.

State Street assumes no liability in connection with the accuracy or completeness of the plan-level expense information provided by CalPERS Supplemental Income 457 Plan or any performance information to the extent it is based on such plan-level expense information.

CalPERS Supplemental Income 457 Plan SSgA U.S. Bond Index Fund - Class I

SSgA U.S. Bond Index Fund Class I represents units of ownership in the SSgA U.S. Bond Index Securities Lending Series Fund.

The Fund seeks to offer broadly diversified, low cost exposure to the overall U.S. bond market.

Investment Objective

The SSgA U.S. Bond Index Fund (the "Fund") seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Barclays U.S. Aggregate Bond Index (the "Index") over the long term.

Investment Strategy

The Fund is managed using a "passive" or "indexing" investment approach, by which SSgA attempts to replicate, before expenses, the performance of the Index. The Fund may attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. However, due to the large number of securities in the Index and the fact that many of the securities comprising the Index may be unavailable for purchase, it may not be possible for the Fund to purchase some of the securities comprising the Index. In such a case, SSgA will select securities for the Fund that SSgA believes will track the characteristics of the Index. The Fund's returns may vary from the returns of the Index.

Key Facts

- Is passively managed; will not short sell securities
- Is not a leveraged strategy
- May lend its portfolio and enter into repurchase agreements (See applicable governing documents for a Portfolio's authority to lend. Participation in a securities lending program may adversely affect the investment returns and risk profile of the Portfolio. See "Selected Risk Factors -- Securities Lending Risk; Risks of Investment Collateral" in the Strategy Disclosure Document)
- May invest in other investment funds, including those managed by SSgA and its affiliates

Risk Management

SSgA monitors the overall risk of the Fund, in order to avoid unintended risk relative to the Index. SSgA manages portfolio characteristics and transaction costs in a manner intended to provide a return as close as practicable to the benchmark return.

About SSgA

The Fund is managed by State Street Global Advisors (SSgA), the investment management division of State Street Bank and Trust Company, and a global leader in providing investment management solutions to clients worldwide. To learn more about SSgA, visit our web site at www.ssga.com.

Performance

Total Returns	Fund	Benchmark
1 Month	-1.59%	-1.55%
Q2 2013	-2.42%	-2.32%
YTD	-2.66%	-2.44%
1 Year	-1.11%	-0.69%
3 Year	3.11%	3.51%
5 Year	4.85%	5.19%

Best Year Since Inception (2000)	11.29%	11.63%
Worst Year Since Inception (1999)	-1.24%	-0.82%

The returns are provided net of the Fund's total expense ratio (found on the last page under the fee disclosure section of the fact sheet) and plan-level expenses, which may include, among others, investment management, recordkeeping, account administration, account manager, administrative, investment services and contingency reserve fees of 0.40% (as specified by the CalPERS Supplemental Income 457 Plan). Actual plan-level expenses will vary, and therefore, the actual performance that would have been experienced by a participant in the CalPERS Supplemental Income 457 Plan may have been lower than that shown. All returns greater than 1 year are annualized. Performance shown represents past performance. Past performance is not a guarantee of future results. Current performance may be lower or higher than the performance shown above. Fund returns reflect all items of income, gain and loss (other than any gain or loss attributable to the mark-to-market value of the securities lending cash collateral pool, as described below) and the investment of dividends and other income. Index returns are unmanaged and do not reflect the deduction of any fees or expenses. Index returns reflect all items of income, gain and loss and the reinvestment of dividends and other income.

The performance figures listed above do not take into account the mark-to-market unit value of the securities lending cash collateral pool held by the Fund. If the Fund marked-to-market units in the securities lending cash collateral pool, performance may be lower. Please see the last page for additional information about securities lending.

Growth of \$10,000

The hypothetical \$10,000 investment chart is plotted quarterly, and includes reinvestment of dividends and capital gains. There is no direct correlation between a hypothetical investment and the anticipated performance of the Fund.

The Fund is a collective investment trust and is not FDIC insured, nor is it an obligation or deposit of, or guaranteed by State Street Corporation, SSgA or its affiliates.

Barclays U.S. Aggregate Bond Index is an index representative of well-diversified exposure to the overall U.S. bond market. More specifically, it covers the dollar-denominated investment-grade fixed-rate taxable bond market, including U.S. treasuries, government-related and corporate securities, mortgaged pass-through securities, asset-backed securities and commercial mortgage-backed securities.

The Barclays U.S. Aggregate Bond Index is a trademark of Barclays, Inc.

Please see the Fee Disclosure section on the last page for a complete disclosure of the Fund's total operating expense ratio.

This fact sheet provides summary information about the Fund and is provided by the CalPERS Supplemental Income 457 Plan. It should be read in conjunction with the Fund's applicable Strategy Disclosure Document, which is available upon request. The Disclosure Document contains important information about the Fund, including a description of a number of risks associated with investing in the fund.

Certain supplemental information may be rounded and may result in the total not adding up to 100.

The top holdings are presented to illustrate examples of the securities that the Fund has bought and may not be representative of the Fund's current or future investments. In the case of fixed income and cash funds the securities are aggregated and shown at the issuer level. The top holdings do not include other assets or instruments that may be held by the Fund including, for example and not by way of limitation, cash or cash equivalents and derivatives such as futures, options and swaps. The figures presented are as of the date shown above, do not include the Fund's entire investment portfolio, and may change at any time.

The portfolio turnover rate is as-of the prior fiscal year-end ("FYE"). It is calculated consistent with Form N-1A by dividing the lesser amounts of purchases or sales of portfolio securities (i.e., underlying Fund shares) for the fiscal year by the monthly average value of the portfolio securities owned by the Fund during the fiscal year.

Market data, prices, and estimates for characteristics calculations provided by Barclays POINT®. Average Credit Quality reflects market value weight of all the rated securities held by the portfolio (excludes unrated securities) using the middle rating provided by either S&P, Moody's and Fitch or lower if only two agency ratings are available. All other portfolio data provided by SSgA. Characteristics are as of the date indicated, are subject to change, and should not be relied upon as current thereafter. Fixed income asset class and country reporting based on Barclays indices which are trademarks of Barclays Inc. and have been licensed for use by State Street. Barclays or its affiliates ("Barclays") shall not be liable for any inaccuracies or errors with respect to any data or Index referenced herein, nor does Barclays sponsor, endorse or promote the Strategy.

Important Message About Risk

There are risks involved with investing, including possible loss of principal. Risks associated with fixed income securities include, but are not limited to, interest rate risks; the risk of issuer default, and inflation risk. This effect is usually pronounced for longer-term securities. Any fixed income security sold or redeemed prior to maturity may be subject to a substantial gain or loss. Government bonds and corporate bonds generally have more moderate short-term price fluctuations than stocks, but provide lower potential long-term returns. U.S. Treasury Bills maintain a stable value if held to maturity, but returns are generally only slightly above the inflation rate.

Additionally, an investment in the Fund is subject to a number of risks, which include but are not limited to: Call Risk, Cash Position Risk, Conflict of Interest Risk, Counterparty Risk, Credit Risk, Custodial Risk, Debt Securities Risk, Defensive Investing Risk, Derivatives Risk, Extension Risk, Geographic Concentration Risk, Income Risk, Index Risk, Inflation-Indexed Securities Risk, Interest Rate Risk, Investment Risk, Issuer Risk, Large Shareholder Risk, Leveraging Risk, Limited Investment Program Risk, Liquidity Risk, Lower-Rated Securities Risk, Market Risk, Market Disruption and Geopolitical Risk, Mortgage-Related and Other Asset-Backed Securities Risk, Municipal Obligations Risk, Portfolio Turnover Risk, Prepayment Risk, Repurchase Agreement Risk, Risk of Investment in Other Pools, Tax Risk, U.S. Government Securities Risk, and Variable and Floating Rate Securities Risk. You should refer to the Fund's Disclosure Document for a complete description of the risks of investing in the Fund.

Risk management does not promise any level of performance or guarantee against loss of principal. SSgA encourages investors to seek the advice of well-qualified financial and tax advisors, accountants, attorneys and other professionals before making any investment or retirement decision.

Securities Lending

The Fund participates in an agency securities lending program sponsored by State Street Bank and Trust Company (the "lending agent") for the purpose of lending (up to 100%) of the Fund's securities, and investing the collateral in a collateral reinvestment fund (the "Collateral Pool"). The Fund compensates its lending agent in connection with operating and maintaining the securities lending program. SSgA acts as investment manager for the Collateral Pool and is compensated for its services. The Collateral Pool is managed to a specific investment objective. The Collateral Pool is not a money market fund registered with the U.S. Securities and Exchange Commission or FDIC-insured bank deposits or otherwise guaranteed by SSgA or State Street Bank and Trust Company or any of their respective affiliates. The net asset value of the Collateral Pool is subject to market and other conditions, will fluctuate and may decrease in the future. Securities lending programs and the subsequent reinvestment of the posted collateral are subject to a number of risks, including the risk that the value of the investments held in the Collateral Pool may decline in value, be sold at a loss or incur credit losses. In the event of a material default in the Collateral Pool, the Fund would incur its pro rata share of the loss. If the value of Collateral Pool units is not \$1.00 at the time you redeem your investment in the Fund your redemption proceeds will reflect the lower mark-to-market value of the Collateral Pool units. For more information you should review the "SSgA Securities Lending Program Disclosure", the "US Cash Collateral Strategy Disclosure Document" and the current fact sheet for the Collateral Pool (which includes the mark-to-market unit prices) in conjunction with the Fund's Disclosure Document which contains important information about the Fund including a description of a number of risks. For a copy of these documents please contact your Plan Administrator. Investors should review and consider all of these factors carefully before making an investment in the Fund.

Additional Information

For more information on plan expenses and current performance information, including performance to the most recent month-end, please visit the Plan website at: <https://calpers.ingplans.com>. You may also contact CalPERS at (800) 260-0659.

Fee Disclosure

The SSgA U.S. Bond Index Fund Class I (the "Fund") seeks to achieve its investment objective by making direct investments in securities or by making investments in other investment funds, including those managed by SSgA and its affiliates ("SSgA Funds"). The Fund indirectly bears a proportional share of the fees and expenses of the SSgA Funds in which the Fund invests ("Indirect Expenses") which may include, among others, investment management, audit, custody, administration, and legal fees. Additionally, the Fund incurs direct fees and expenses ("Direct Expenses") which may include, among others, custody, audit, administration, and legal fees. The investment management fee for Class I units of the Fund is assessed outside the Fund and not included as part of the Direct Expenses, a portion (which may vary) may be paid to third-parties or intermediaries for recordkeeping, asset servicing, sub-accounting and communication services to plans invested in the Fund. The Indirect Expenses combined with the Direct Expenses of the Fund (the "Total Annual Operating Expense Ratio") are not expected to exceed .02% annually. You should contact your Plan Administrator for a complete description of the fees and expenses applicable to Class I units of the Fund, including both the Total Annual Operating Expense Ratio and plan-level expenses, including the investment management fee.

The Total Annual Operating Expense Ratio of .02% reflects all indirect and direct fees and expenses associated with the Fund, but excludes plan-level expenses. Transaction costs (including, for example, brokerage costs, temporary investments in SSgA exchange traded funds, and taxes, if any) are not reflected in the Total Annual Operating Expense Ratio but are reflected in the net performance returns of the Fund. The investment manager does not assess or charge any fee in connection with the purchase or redemption of units of the Fund.

The following example is intended to help illustrate the impact of fees and expenses associated with an investment in the Class I units of the Fund (based upon the Total Annual Operating Expense Ratio and plan-level expenses of 0.40%, as specified by CalPERS Supplemental Income 457 Plan). It is intended to illustrate the hypothetical expense that you would incur over various time periods if you were to invest \$10,000 in the Class I units of the Fund. This example assumes that the Fund provides a return of 5% a year and that operating expenses of the Fund and the plan-level expenses remain the same. The results apply whether or not you redeem your investment at the end of the given time period.

Example Fees: 1 year - \$40.92; 3 years - \$128.49; 5 years - \$224.31; 10 years - \$505.18

The example outlined above was for illustrative purposes only and does not represent the actual fees and expenses or the past or future performance of the Fund. Actual future fees and expenses may be higher or lower than those shown.

Fees and expenses are only one of several factors that participants and beneficiaries should consider when making investment decisions.

State Street assumes no liability in connection with the accuracy or completeness of the plan-level expense information provided by CalPERS Supplemental Income 457 Plan or any performance information to the extent it is based on such plan-level expense information.

CalPERS Supplemental Income 457 Plan

SSgA U.S. Short Term Government/Credit Bond Index Fund - Class I

The SSgA U.S. Short-Term Government/Credit Bond Index Fund Class I represents units of ownership in the SSgA U.S. Short-Term Government/Credit Bond Index Securities Lending Series Fund.

The Fund seeks to offer broad, low cost exposure to U.S. fixed income securities with maturities ranging from 1-3 years.

Investment Objective

The SSgA U.S. Short-Term Government/Credit Bond Index Fund (the "Fund") seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Barclays U.S. 1-3 Year Government/Credit Bond Index (the "Index") over the long term.

Investment Strategy

The Fund is managed using a "passive" or "indexing" investment approach, by which SSgA attempts to replicate, before expenses, the performance of the Index. The Fund may attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. However, due to the large number of securities in the Index and the fact that many of the securities comprising the Index may be unavailable for purchase, it may not be possible for the Fund to purchase some of the securities comprising the Index. In such a case, SSgA will select securities for the Fund that SSgA believes will track the characteristics of the Index. The Fund's returns may vary from the returns of the Index.

Key Facts

- Is passively managed
- Does not normally use futures or other derivatives to create "notional" or "synthetic" index exposures
- May lend its portfolio and enter into repurchase agreements (See applicable governing documents for a Portfolio's authority to lend. Participation in a securities lending program may adversely affect the investment returns and risk profile of the Portfolio. See "Selected Risk Factors-Securities Lending Risk; Risks of Investment Collateral" in the Strategy Disclosure Document)
- May invest in other investment pools, including those managed by SSgA and its affiliates
- Is not a leveraged strategy
- Will not sell securities short

Risk Management

SSgA monitors the overall risk of the Fund, in order to avoid unintended risk relative to the Index. SSgA manages portfolio characteristics and transaction costs in a manner intended to provide a return as close as practicable to the benchmark return.

About SSgA

The Fund is managed by State Street Global Advisors (SSgA), the investment management division of State Street Bank and Trust Company, and a global leader in providing investment management solutions to clients worldwide. To learn more about SSgA, visit our web site at www.ssga.com.

Performance

Total Returns	Fund	Benchmark
1 Month	-0.17%	-0.14%
Q2 2013	-0.25%	-0.12%
YTD	-0.19%	0.07%
1 Year	0.20%	0.74%
3 Year	0.69%	1.25%
5 Year	N/A	N/A
7 Year	N/A	N/A
10 Year	N/A	N/A
Since Inception (Dec 2009)	0.97%	1.63%
Best Year Since Inception (2010)	1.91%	2.80%
Worst Year Since Inception (2012)	0.62%	1.26%

The returns are provided net of the Fund's total expense ratio (found on the last page under the fee disclosure section of the fact sheet) and plan-level expenses, which may include, among others, investment management, recordkeeping, account administration, account manager, administrative, investment services and contingency reserve fees of 0.45% (as specified by the CalPERS Supplemental Income 457 Plan). Actual plan-level expenses will vary, and therefore, the actual performance that would have been experienced by a participant in the CalPERS Supplemental Income 457 Plan may have been lower than that shown. All returns greater than 1 year are annualized. Performance shown represents past performance. Past performance is not a guarantee of future results. Current performance may be lower or higher than the performance shown above. Fund returns reflect all items of income, gain and loss (other than any gain or loss attributable to the mark-to-market value of the securities lending cash collateral pool, as described below) and the investment of dividends and other income. Index returns are unmanaged and do not reflect the deduction of any fees or expenses. Index returns reflect all items of income, gain and loss and the reinvestment of dividends and other income.

The performance figures listed above do not take into account the mark-to-market unit value of the securities lending cash collateral pool held by the Fund. If the Fund marked-to-market units in the securities lending cash collateral pool, performance may be lower. Please see the last page for additional information about securities lending.

Growth of \$10,000

The hypothetical \$10,000 investment chart is plotted quarterly, and includes reinvestment of dividends and capital gains. There is no direct correlation between a hypothetical investment and the anticipated performance of the Fund.

The Fund is a collective investment trust and is not FDIC insured, nor is it an obligation or deposit of, or guaranteed by State Street Corporation, SSgA or its affiliates.

The Barclays U.S. 1-3 Year Government/Credit Bond Index includes all public obligations of the U.S. Treasury and all publicly issued debt of the U.S. Government agencies and quasi-federal corporations with maturities ranging from 1 to 3 years. It also includes all publicly issued, fixed rate, non-convertible, investment grade, U.S. dollar denominated, SEC registered corporate debt with maturities ranging from 1 to 3 years.

The Barclays U.S. 1-3 Year Government/Credit Bond Index is a trademark of Barclays, Inc.

Please see the Fee Disclosure section on the last page for a complete disclosure of the Fund's total operating expense ratio.

You should refer to the Fund's Disclosure Document for a complete description of the risks of investing in the Fund.

Risk management does not promise any level of performance or guarantee against loss of principal. SSgA encourages investors to seek the advice of well-qualified financial and tax advisors, accountants, attorneys and other professionals before making any investment or retirement decision.

Securities Lending

The Fund participates in an agency securities lending program sponsored by State Street Bank and Trust Company (the "lending agent") for the purpose of lending (up to 100%) of the Fund's securities, and investing the collateral in a collateral reinvestment fund (the "Collateral Pool"). The Fund compensates its lending agent in connection with operating and maintaining the securities lending program. SSgA acts as investment manager for the Collateral Pool and is compensated for its services. The Collateral Pool is managed to a specific investment objective. The Collateral Pool is not a money market fund registered with the U.S. Securities and Exchange Commission or FDIC-insured bank deposits or otherwise guaranteed by SSgA or State Street Bank and Trust Company or any of their respective affiliates. The net asset value of the Collateral Pool is subject to market and other conditions, will fluctuate and may decrease in the future. Securities lending programs and the subsequent reinvestment of the posted collateral are subject to a number of risks, including the risk that the value of the investments held in the Collateral Pool may decline in value, be sold at a loss or incur credit losses. In the event of a material default in the Collateral Pool, the Fund would incur its pro rata share of the loss. If the value of Collateral Pool units is not \$1.00 at the time you redeem your investment in the Fund your redemption proceeds will reflect the lower mark-to-market value of the Collateral Pool units. For more information you should review the "SSgA Securities Lending Program Disclosure", the "US Cash Collateral Strategy Disclosure Document" and the current fact sheet for the Collateral Pool (which includes the mark-to-market unit prices) in conjunction with the Fund's Disclosure Document which contains important information about the Fund including a description of a number of risks. For a copy of these documents please contact your Plan Administrator. Investors should review and consider all of these factors carefully before making an investment in the Fund.

Additional Information

For more information on plan expenses and current performance information, including performance to the most recent month-end, please visit the Plan website at: <https://calpers.ingplans.com>. You may also contact CalPERS at (800) 260-0659.

Fee Disclosure

The SSgA U.S. Short-Term Government/Credit Bond Index Fund (the "Fund") seeks to achieve its investment objective by making direct investments in securities or by making investments in other investment funds, including those managed by SSgA and its affiliates ("SSgA Funds"). The Fund indirectly bears a proportional share of the fees and expenses of the SSgA Funds in which the Fund invests ("Indirect Expenses") which may include, among others, investment management, audit, custody, administration, and legal fees. Additionally, the Fund incurs direct fees and expenses ("Direct Expenses") which may include, among others, custody, audit, administration, and legal fees. The investment management fee for Class I units of the Fund is assessed outside the Fund and not included as part of the Direct Expenses, a portion (which may vary) may be paid to third-parties or intermediaries for recordkeeping, asset servicing, sub-accounting and communication services to plans invested in the Fund. The Indirect Expenses combined with the Direct Expenses of the Fund (the "Total Annual Operating Expense Ratio") are not expected to exceed .02% annually. You should contact your Plan Administrator for a complete description of the fees and expenses applicable to Class I units of the Fund, including both the Total Annual Operating Expense Ratio and plan-level expenses, including the investment management fee.

The Total Annual Operating Expense Ratio of .02% reflects all indirect and direct fees and expenses associated with the Fund, but excludes plan-level expenses. Transaction costs (including, for example, brokerage costs, temporary investments in SSgA exchange traded funds, and taxes, if any) are not reflected in the Total Annual Operating Expense Ratio but are reflected in the net performance returns of the Fund. The investment manager does not assess or charge any fee in connection with the purchase or redemption of units of the Fund.

The following example is intended to help illustrate the impact of fees and expenses associated with an investment in the Class I units of the Fund (based upon the Total Annual Operating Expense Ratio and plan-level expenses of 0.45%, as specified by CalPERS Supplemental Income 457 Plan). It is intended to illustrate the hypothetical expense that you would incur over various time periods if you were to invest \$10,000 in the Class I units of the Fund. This example assumes that the Fund provides a return of 5% a year and that operating expenses of the Fund and the plan-level expenses remain the same. The results apply whether or not you redeem your investment at the end of the given time period.

Example Fees: 1 year - \$46.02; 3 years - \$144.45; 5 years - \$252.03; 10 years - \$566.87

The example outlined above was for illustrative purposes only and does not represent the actual fees and expenses or the past or future performance of the Fund. Actual future fees and expenses may be higher or lower than those shown.

Fees and expenses are only one of several factors that participants and beneficiaries should consider when making investment decisions.

State Street assumes no liability in connection with the accuracy or completeness of the plan-level expense information provided by CalPERS Supplemental Income 457 Plan or any performance information to the extent it is based on such plan-level expense information.

CalPERS Supplemental Income 457 Plan SSgA U.S. Government Short Term Investment Fund (GSTIF)

The Fund seeks to offer safety of principal and a competitive yield by investing in securities issued by the U.S. Government.

Investment Objective

The SSgA U.S. Government Short Term Investment Fund (the "Fund") seeks to maximize current income, to the extent consistent with the preservation of capital and liquidity and the maintenance of a stable \$1.00 per share net asset value ("NAV"), by investing in U.S. government securities and in repurchase agreements collateralized by U.S. government securities.

The Fund is not a "money market fund" registered with the Securities and Exchange Commission, and is not subject to the various rules and limitations that apply to such funds. There can be no assurance that the Fund will maintain a stable net asset value.

Investment Strategy

The Portfolio invests principally in the following instruments: obligations issued or guaranteed as to principal and interest by the U.S. government or its agencies and instrumentalities, such as the Federal Home Loan Mortgage Corporation and the Federal National Mortgage Association, and U.S. government-sponsored entities such as the Federal Home Loan Bank, which are neither insured nor guaranteed by the U.S. Treasury and repurchase agreements secured by such instruments. These instruments may bear fixed, variable or floating rates of interest. There can be no assurance that the Fund will maintain a stable net asset value.

Key Facts

- Is actively managed; will not short sell securities
- Does not use futures or other derivatives
- May invest in other investment funds, including those managed by SSgA and its affiliates

Risk Management

SSgA monitors credit and interest rate risk on a continuous basis. The Fund will be highly diversified and will not invest more than 5% of its total assets in obligations of any one issuer, other than obligations of the U.S. Government or its agencies or obligations or other investment pools in which it may invest.

About SSgA

The Fund is managed by SSgA, the investment management division of State Street Bank and Trust Company, and a global leader in providing investment management solutions to clients worldwide. To learn more about SSgA, visit our web site at www.ssga.com

Current performance may be lower or higher than the performance shown above. Fund returns include the reinvestment of dividends and capital gains and are calculated in US dollars. Index returns are unmanaged and do not reflect the deduction of any fees or expenses. Index returns reflect all items of income, gain and loss and the reinvestment of dividends and other income.

The Fund is a collective investment trust and is not FDIC insured, nor is it an obligation or deposit of, or guaranteed by State Street Corporation, SSgA or its affiliates.

Benchmark Description

The BofA Merrill Lynch US 3-Month Treasury Bill Index is comprised of a single issue purchased at the beginning of the month and held for a full month. At the end of the month that issue is sold and rolled into a newly selected issue. The issue selected at each month-end rebalancing is the outstanding Treasury Bill that matures closest to, but not beyond, three months from the rebalancing date. To qualify for selection, an issue must have settled on or before the month-end rebalancing date. While the index will often hold the Treasury Bill issued at the most recent 3-month auction, it is also possible for a seasoned 6-month Bill to be selected.

Distribution Calculations: (Security Distribution, Quality Distribution, Maturity Distribution and Sector Distribution) are measured on a trade date basis and exclude uninvested cash from the market value used to compute the percentage calculations.

Certain supplemental information may be rounded and may result in the total not adding up to 100.

The top holdings are presented to illustrate examples of the securities that the Fund has bought and may not be representative of the Fund's current or future investments. In the case of fixed income and cash funds the securities are aggregated and shown at the issuer level. The top holdings do not include other assets or instruments that may be held by the Fund including, for example and not by way of limitation, cash or cash equivalents and derivatives such as futures, options and swaps. The figures presented are as of the date shown above, do not include the Fund's entire investment portfolio, and may change at any time.

Characteristics presented are calculated using the month end market value of holdings, except for beta and standard deviation, if shown, which use month end return values. Averages reflect the market weight of securities in the portfolio. Estimated and historical market data used for characteristic calculations are provided by SNL Financial. All other portfolio data provided by SSgA. Characteristics are as of the date indicated, are subject to change, and should not be relied upon as current thereafter.

Important Message About Risk

There are risks involved with investing, including possible loss of principal. Risks associated with fixed income securities include, but are not limited to, interest rate risks; the risk of issuer default, and inflation risk. This effect is usually pronounced for longer-term securities. Any fixed income security sold or redeemed prior to maturity may be subject to a substantial gain or loss. Government bonds and corporate bonds generally have more moderate short-term price fluctuations than stocks, but provide lower potential long-term returns. U.S. Treasury Bills maintain a stable value if held to maturity, but returns are generally only slightly above the inflation rate.

Additionally, an investment in the Fund is subject to a number of risks, which include but are not limited to: Call Risk, Cash Position Risk, Conflict of Interest Risk, Counterparty Risk, Credit Risk, Custodial Risk, Debt Securities Risk, Defensive Investing Risk, Derivatives Risk, Extension Risk, Geographic Concentration Risk, Income Risk, Index Risk, Inflation-Indexed Securities Risk, Interest Rate Risk, Investment Risk, Issuer Risk, Large Shareholder Risk, Leveraging Risk, Limited Investment Program Risk, Liquidity Risk, Lower-Rated Securities Risk, Market Risk, Market Disruption and Geopolitical Risk, Mortgage-Related and Other Asset-Backed Securities Risk, Municipal Obligations Risk, Portfolio Turnover Risk, Prepayment Risk, Repurchase Agreement Risk, Risk of Investment in Other Pools, Tax Risk, U.S. Government Securities Risk, and Variable and Floating Rate Securities Risk. You should refer to the Fund's Disclosure Document for a complete description of the risks of investing in the Fund.

Risk management does not promise any level of performance or guarantee against loss of principal. SSgA encourages investors to seek the advice of well-qualified financial and tax advisors, accountants, attorneys and other professionals before making any investment or retirement decision.

Additional Information

For more information on plan expenses and current performance information, including performance to the most recent month-end, please visit the Plan website at: <https://calpers.inplans.com>. You may also contact CalPERS at (800) 260-0659.

Fee Disclosure

The SSgA U.S. Government Short Term Investment Fund (the "Fund") seeks to achieve its investment objective by making direct investments in securities or by making investments in other investment funds, including those managed by SSgA and its affiliates ("SSgA Funds"). The Fund indirectly bears a proportional share of the fees and expenses of the SSgA Funds in which the Fund invests ("Indirect Expenses") which may include, among others, investment management, audit, custody, administration, index and legal fees and transaction costs. Additionally, the Fund incurs direct fees and expenses ("Direct Expenses") which may include, among others, custody, audit, administration, index and legal fees and transaction costs. Additionally, the Fund incurs direct fees and expenses ("Direct Expenses") which may include, among others, custody, audit, administration, index and legal fees and transaction costs. The investment management fee for the Fund is assessed outside the Fund and is not included as part of the Direct Expenses. The Indirect Expenses combined with the Direct Expenses of the Fund will vary, but are not expected to exceed .01% annually.

You should contact your Plan Administrator for a complete description of the fees and expenses applicable to the Fund, including both the Fund's expenses and plan-level expenses, including the investment management fee.

Transaction costs (including, for example, brokerage costs, temporary investments in SSgA exchange traded funds, and taxes, if any) are not reflected in the Fund's expenses but are reflected in the net performance returns of the Fund. The investment manager does not assess or charge any fee in connection with the purchase or redemption of units of the Fund.

The following example is intended to help illustrate the impact of fees and expenses associated with an investment in the Fund (based upon the Fund's expenses of .01% and plan-level expenses of 0.45%, as specified by CalPERS Supplemental Income 457 Plan). It is intended to illustrate the hypothetical expense that you would incur over various time periods if you were to invest \$10,000 in the Fund. This example assumes that the Fund provides a return of 5% a year and that operating expenses of the Fund and the plan-level expenses remain the same. The results apply whether or not you redeem your investment at the end of the given time period.

Example Fees: 1 year - \$46.02; 3 years - \$144.45; 5 years - \$252.03; 10 years - \$566.8

The example outlined above was for illustrative purposes only and does not represent the actual fees and expenses or the past or future performance of the Fund. Actual future fees and expenses may be higher or lower than those shown.

Fees and expenses are only one of several factors that participants and beneficiaries should consider when making investment decisions.

State Street assumes no liability in connection with the accuracy or completeness of the plan-level expense information provided by CalPERS Supplemental Income 457 Plan or any performance information to the extent it is based on such plan-level expense information.

CalPERS Supplemental Income 457 Plan SSgA Russell All Cap Index Fund - Class I

SSgA Russell All Cap Index Fund Class I represents units of ownership in the SSgA Russell All Cap Index Securities Lending Series Fund.

The Fund seeks to offer broad, low cost exposure to stocks of companies in emerging markets.

Investment Objective

The SSgA Russell All Cap Index Fund (the "Fund") seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Russell 3000® Index (the "Index") over the long term.

Investment Strategy

The Fund is managed using a "passive" or "indexing" investment approach, by which SSgA attempts to match, before expenses, the performance of the Index. SSgA will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSgA may employ a sampling or optimization technique to construct the portfolio in question. The Fund's returns may vary from the returns of the Index.

From time to time SSgA may purchase securities that are not yet represented in the Index or sell securities that have not yet been removed from the Index.

Key Facts

- Is passively managed; will not short sell securities
- Uses futures and may use other derivatives
- Is not a leveraged strategy
- May lend its portfolio and enter into repurchase agreements (See applicable governing documents for a Portfolio's authority to lend. Participation in a securities lending program may adversely affect the investment returns and risk profile of the Portfolio. See "Selected Risk Factors -- Securities Lending Risk; Risks of Investment Collateral" in the Strategy Disclosure Document)
- May invest in other investment funds, including those managed by SSgA and its affiliates

Risk Management

SSgA monitors the overall risk of the Fund, in order to avoid unintended risk relative to the Index. SSgA manages portfolio characteristics and transaction cost in a manner intended to provide a return as close as practicable to the benchmark return.

About SSgA

The Fund is managed by State Street Global Advisors (SSgA), the investment management division of State Street Bank and Trust Company, and a global leader in providing investment management solutions to clients worldwide. To learn more about SSgA, visit our web site at www.ssga.com.

Performance

Total Returns	Fund	Benchmark
1Month	-1.34%	-1.30%
3Month	2.59%	2.69%
Yr to Dt	13.86%	14.06%
1Year	21.06%	21.46%
3Years	18.22%	18.63%
5Years	7.01%	7.25%
7Years	5.56%	5.84%
10Years	7.47%	7.81%
Since Inception (5/31/1997)	5.99%	6.34%
Best Since Inception (2003)	30.00%	31.04%
Worst Since Inception (2008)	-37.36%	-37.31%

The returns are provided net of the Fund's total expense ratio (found on the last page under the fee disclosure section of the fact sheet) and plan-level expenses, which may include, among others, investment management, recordkeeping, account administration, account manager, administrative, investment services and contingency reserve fees of 0.41% (as specified by the CalPERS Supplemental Income 457 Plan). Actual plan-level expenses will vary, and therefore, the actual performance that would have been experienced by a participant in the CalPERS Supplemental Income 457 Plan may have been lower than that shown. All returns greater than 1 year are annualized. Performance shown represents past performance. Past performance is not a guarantee of future results. Current performance may be lower or higher than the performance shown above. Fund returns reflect all items of income, gain and loss (other than any gain or loss attributable to the mark-to-market value of the securities lending cash collateral pool, as described below) and the investment of dividends and other income. Index returns are unmanaged and do not reflect the deduction of any fees or expenses. Index returns reflect all items of income, gain and loss and the reinvestment of dividends and other income.

The performance figures listed above do not take into account the mark-to-market unit value of the securities lending cash collateral pool held by the Fund. If the Fund marked-to-market units in the securities lending cash collateral pool, performance may be lower. Please see the last page for additional information about securities lending.

Growth of \$10,000

The hypothetical \$10,000 investment chart is plotted quarterly, and includes reinvestment of dividends and capital gains. There is no direct correlation between a hypothetical investment and the anticipated performance of the Fund

The Fund is a collective investment trust and is not FDIC insured, nor is it an obligation or deposit of, or guaranteed by State Street Corporation, SSgA or its affiliates.

The Russell 3000® Index measures the performance of the largest 3,000 U.S. companies representing approximately 98% of the investable U.S. equity market. Russell Investment Group is the source and owner of the trademarks, service marks and copyrights related to the Russell Indexes. Russell 3000® is a trademark of Russell Investment Group.

Please see the Fee Disclosure section on the last page for a complete disclosure of the Fund's total operating expense ratio.

This fact sheet provides summary information about the Fund and is provided by the CalPERS Supplemental Income 457 Plan. It should be read in conjunction with the Fund's applicable Strategy Disclosure Document, which is available upon request. The Disclosure Document contains important information about the Fund, including a description of a number of risks associated with investing in the fund.

BERKSHIRE HATHAWAY INC-CL B	1.13
JPMORGAN CHASE & CO	1.12

Certain supplemental information may be rounded and may result in the total not adding up to 100.

The top holdings are presented to illustrate examples of the securities that the Fund has bought and may not be representative of the Fund's current or future investments. In the case of fixed income and cash funds the securities are aggregated and shown at the issuer level. The top holdings do not include other assets or instruments that may be held by the Fund including, for example and not by way of limitation, cash or cash equivalents and derivatives such as futures, options and swaps. The figures presented are as of the date shown above, do not include the Fund's entire investment portfolio, and may change at any time.

The portfolio turnover rate is as-of the prior fiscal year-end ("FYE"). It is calculated consistent with Form N-1A by dividing the lesser amounts of purchases or sales of portfolio securities for the fiscal year by the monthly average value of the portfolio securities owned by the Fund during the fiscal year.

Portfolio characteristics are calculated using the month end market value of holdings except, if shown, for beta and standard deviation which use month end return values. Averages reflect the market weight of securities in the portfolio. Market data, prices, and dividend estimates for characteristics calculations provided by FactSet Research Systems, Inc. All other portfolio data provided by SSgA. Characteristics are as of the date indicated, are subject to change, and should not be relied upon as current thereafter. Sector reporting based on the Global Industry Classification Standard ("GICS") which was developed by and is the exclusive property and a service mark of MSCI Inc. ("MSCI") and Standard & Poor's, a division of The McGraw-Hill Companies, Inc. ("S&P") and is licensed for use by State Street.

Important Message About Risk

There are risks involved with investing, including possible loss of principal. Generally, among asset classes, stocks are more volatile than bonds or short-term instruments. Stock values fluctuate in response to the activities of individual companies and general market and economic conditions.

Additionally, an investment in the Fund is subject to a number of risks, which include but are not limited to: Conflict of Interest Risk, Counterparty Risk, Custodial Risk, Derivatives Risk, Equity Risk, Geographic Concentration Risk, Growth Investing Risk, Hedging Transactions and Related Risks, Index Risk, Investment Risk, Issuer Risk, Large Shareholder Risk, Leveraging Risk, Limited Investment Program Risk, Liquidity Risk, Market Capitalization Risk, Market Disruption and Geopolitical Risk, Market Risk, Modeling Risk, Portfolio Turnover Risk, Repurchase Agreement Risk, Risk of Investment in Other Pools, Small and Micro-Cap Companies Risk, Tax Risk, and Value Investing Risk. You should refer to the Fund's Disclosure Document for a complete description of the risks of investing in the Fund.

Risk management does not promise any level of performance or guarantee against loss of principal. SSgA encourages investors to seek the advice of well-qualified financial and tax advisors, accountants, attorneys and other professionals before making any investment or retirement decision.

Securities Lending

The Fund participates in an agency securities lending program sponsored by State Street Bank and Trust Company (the "lending agent") for the purpose of lending (up to 100%) of the Fund's securities, and investing the collateral in a collateral reinvestment fund (the "Collateral Pool"). The Fund compensates its lending agent in connection with operating and maintaining the securities lending program. SSgA acts as investment manager for the Collateral Pool and is compensated for its services. The Collateral Pool is managed to a specific investment objective. The Collateral Pool is not a money market fund registered with the U.S. Securities and Exchange Commission or FDIC-insured bank deposits or otherwise guaranteed by SSgA or State Street Bank and Trust Company or any of their respective affiliates. The net asset value of the Collateral Pool is subject to market and other conditions, will fluctuate and may decrease in the future. Securities lending programs and the subsequent reinvestment of the posted collateral are subject to a number of risks, including the risk that the value of the investments held in the Collateral Pool may decline in value, be sold at a loss or incur credit losses. In the event of a material default in the Collateral Pool, the Fund would incur its pro rata share of the loss. If the value of Collateral Pool units is not \$1.00 at the time you redeem your investment in the Fund your redemption proceeds will reflect the lower mark-to-market value of the Collateral Pool units. For more information you should review the "SSgA Securities Lending Program Disclosure", the "US Cash Collateral Strategy Disclosure Document" and the current fact sheet for the Collateral Pool (which includes the mark-to-market unit prices) in conjunction with the Fund's Disclosure Document which contains important information about the Fund including a description of a number of risks. For a copy of these documents please contact your Plan Administrator. Investors should review and consider all of these factors carefully before making an investment in the Fund.

Additional Information

For more information on plan expenses and current performance information, including performance to the most recent month-end, please visit the Plan website at: <https://calpers.ingplans.com>. You may also contact CalPERS at (800) 260-0659.

Fee Disclosure

The SSgA Russell All Cap Index Fund (the "Fund") seeks to achieve its investment objective by making direct investments in securities or by making investments in other investment funds, including those managed by SSgA and its affiliates ("SSgA Funds"). The Fund indirectly bears a proportional share of the fees and expenses of the SSgA Funds in which the Fund invests ("Indirect Expenses") which may include, among others, investment management, audit, custody, administration, and legal fees. Additionally, the Fund incurs direct fees and expenses ("Direct Expenses") which may include, among others, custody, audit, administration, and legal fees. The investment management fee for Class I units of the Fund is assessed outside the Fund and not included as part of the Direct Expenses, a portion (which may vary) may be paid to third-parties or intermediaries for recordkeeping, asset servicing, sub-accounting and communication services to plans invested in the Fund. The Indirect Expenses combined with the Direct Expenses of the Fund (the "Total Annual Operating Expense Ratio") are not expected to exceed .02% annually. You should contact your Plan Administrator for a complete description of the fees and expenses applicable to Class I units of the Fund, including both the Total Annual Operating Expense Ratio and plan-level expenses, including the investment management fee.

The Total Annual Operating Expense Ratio of .02% reflects all indirect and direct fees and expenses associated with the Fund, but excludes plan-level expenses. Transaction costs (including, for example, brokerage costs, temporary investments in SSgA exchange traded funds, and taxes, if any) are not reflected in the Total Annual Operating Expense Ratio but are reflected in the net performance returns of the Fund. The investment manager does not assess or charge any fee in connection with the purchase or redemption of units of the Fund.

The following example is intended to help illustrate the impact of fees and expenses associated with an investment in the Class I units of the Fund (based upon the Total Annual Operating Expense Ratio and plan-level expenses of 0.41%, as specified by CalPERS Supplemental Income 457 Plan). It is intended to illustrate the hypothetical expense that you would incur over various time periods if you were to invest \$10,000 in the Class I units of the Fund. This example assumes that the Fund provides a return of 5% a year and that operating expenses of the Fund and the plan-level expenses remain the same. The results apply whether or not you redeem your investment at the end of the given time period.

Example Fees: 1 year - \$41.94; 3 years - \$131.69; 5 years - \$229.86; 10 years - \$517.54

The example outlined above was for illustrative purposes only and does not represent the actual fees and expenses or the past or future performance of the Fund. Actual future fees and expenses may be higher or lower than those shown.

Fees and expenses are only one of several factors that participants and beneficiaries should consider when making investment decisions.

State Street assumes no liability in connection with the accuracy or completeness of the plan-level expense information provided by CalPERS Supplemental Income 457 Plan or any performance information to the extent it is based on such plan-level expense information.

CalPERS Supplemental Income 457 Plan SSgA Global All Cap Equity ex-U.S. Index Fund - Class I

SSgA Global All Cap Equity ex-U.S. Index Fund Class I represents units of ownership in the SSgA Global All Cap Equity ex-U.S. Index Securities Lending Series Fund.

The Fund seeks to offer broad, low cost exposure to stocks of companies ranging from small to large cap in developed and emerging countries excluding the United States.

Investment Objective

The SSgA Global All Cap Equity ex-U.S. Index Fund (the "Fund") seeks an investment return that approximates as closely as practicable, before expenses, the performance of the MSCI ACWI ex- USA IMI Index (the "Index") over the long term

Investment Strategy

The Fund is managed using a "passive" or "indexing" investment approach, by which SSgA attempts to match, before expenses, the performance of the Index. SSgA will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSgA may employ a sampling or optimization technique to construct the portfolio in question. The Fund's returns may vary from the returns of the Index.

From time to time SSgA may purchase securities that are not yet represented in the Index or sell securities that have not yet been removed from the Index

Key Facts

- Is passively managed
- May use futures and other derivatives
- May invest in other investment pools, including those managed by SSgA and its affiliates
- Is not a leveraged strategy
- Will not sell securities short

Risk Management

SSgA monitors the overall risk of the Fund, in order to avoid unintended risk relative to the Index. SSgA manages portfolio characteristics and transaction cost in a manner intended to provide a return as close as practicable to the benchmark return.

About SSgA

The Fund is managed by State Street Global Advisors (SSgA), the investment management division of State Street Bank and Trust Company, and a global leader in providing investment management solutions to clients worldwide. To learn more about SSgA, visit our web site at www.ssga.com.

Important Message About Risk

There are risks involved with investing, including possible loss of principal. Generally, among asset classes, stocks are more volatile than bonds or short-term instruments. Stock values fluctuate in response to the activities of individual companies and general market and economic conditions. Investing in foreign domiciled securities may involve risk of capital loss from unfavorable fluctuation in currency values, withholding taxes, from differences in generally accepted accounting principles or from economic or political instability in other nations. Investments in emerging or developing markets may be more volatile and less liquid than investing in developed markets and may involve exposure to economic structures that are generally less diverse and mature and to political systems which have less stability than those of more developed countries.

Additionally, an investment in the Fund is subject to a number of risks, which include but are not limited to: Conflict of Interest Risk, Counterparty Risk, Currency Risk, Custodial Risk, Depositary Receipts Risk, Derivatives Risk, Emerging Markets Risk, Equity Risk, Geographic Concentration Risk, Index Risk, Investment Risk, Issuer Risk, Leveraging Risk, Limited Investment Program Risk, Liquidity Risk, Market Capitalization Risk, Market Risk, Non-US Securities Risk, Portfolio Turnover Risk, Risk of Investment in Other Pools, Small Companies Risk, Tax Risk, and Valuation Risk. You should refer to the Fund's Disclosure Document for a complete description of the risks of investing in the Fund.

Risk management does not promise any level of performance or guarantee against loss of principal. SSgA encourages investors to seek the advice of well-qualified financial and tax advisors, accountants, attorneys and other professionals before making any investment or retirement decision.

Securities Lending

The Fund participates in an agency securities lending program sponsored by State Street Bank and Trust Company (the "lending agent") for the purpose of lending (up to 100%) of the Fund's securities, and investing the collateral in a collateral reinvestment fund (the "Collateral Pool"). The Fund compensates its lending agent in connection with operating and maintaining the securities lending program. SSgA acts as investment manager for the Collateral Pool and is compensated for its services. The Collateral Pool is managed to a specific investment objective. The Collateral Pool is not a money market fund registered with the U.S. Securities and Exchange Commission or FDIC-insured bank deposits or otherwise guaranteed by SSgA or State Street Bank and Trust Company or any of their respective affiliates. The net asset value of the Collateral Pool is subject to market and other conditions, will fluctuate and may decrease in the future. Securities lending programs and the subsequent reinvestment of the posted collateral are subject to a number of risks, including the risk that the value of the investments held in the Collateral Pool may decline in value, be sold at a loss or incur credit losses. In the event of a material default in the Collateral Pool, the Fund would incur its pro rata share of the loss. If the value of Collateral Pool units is not \$1.00 at the time you redeem your investment in the Fund your redemption proceeds will reflect the lower mark-to-market value of the Collateral Pool units. For more information you should review the "SSgA Securities Lending Program Disclosure", the "US Cash Collateral Strategy Disclosure Document" and the current fact sheet for the Collateral Pool (which includes the mark-to-market unit prices) in conjunction with the Fund's Disclosure Document which contains important information about the Fund including a description of a number of risks. For a copy of these documents please contact your Plan Administrator. Investors should review and consider all of these factors carefully before making an investment in the Fund.

Additional Information

Fee Disclosure

The SSgA Global All Cap Equity ex-U.S. Index Fund Class I (the "Fund") seeks to achieve its investment objective by making direct investments in securities or by making investments in other investment funds, including those managed by SSgA and its affiliates ("SSgA Funds"). The Fund indirectly bears a proportional share of the fees and expenses of the SSgA Funds in which the Fund invests ("Indirect Expenses") which may include, among others, investment management, audit, custody, administration, and legal fees. Additionally, the Fund incurs direct fees and expenses ("Direct Expenses") which may include, among others, custody, audit, administration, and legal fees. The investment management fee for Class I units of the Fund is assessed outside the Fund and not included as part of the Direct Expenses, a portion (which may vary) may be paid to third-parties or intermediaries for recordkeeping, asset servicing, sub-accounting and communication services to plans invested in the Fund. The Indirect Expenses combined with the Direct Expenses of the Fund (the "Total Annual Operating Expense Ratio") are not expected to exceed .06% annually. You should contact your Plan Administrator for a complete description of the fees and expenses applicable to Class I units of the Fund, including both the Total Annual Operating Expense Ratio and plan-level expenses, including the investment management fee.

The Total Annual Operating Expense Ratio of .06% reflects all indirect and direct fees and expenses associated with the Fund, but excludes plan-level expenses. Transaction costs (including, for example, brokerage costs, temporary investments in SSgA exchange traded funds, and taxes, if any) are not reflected in the Total Annual Operating Expense Ratio but are reflected in the net performance returns of the Fund. The investment manager does not assess or charge any fee in connection with the purchase or redemption of units of the Fund.

The following example is intended to help illustrate the impact of fees and expenses associated with an investment in the Class I units of the Fund (based upon the Total Annual Operating Expense Ratio and plan-level expenses of 0.46%, as specified by CalPERS Supplemental Income 457 Plan). It is intended to illustrate the hypothetical expense that you would incur over various time periods if you were to invest \$10,000 in the Class I units of the Fund. This example assumes that the Fund provides a return of 5% a year and that operating expenses of the Fund and the plan-level expenses remain the same. The results apply whether or not you redeem your investment at the end of the given time period.

Example Fees: 1 year - \$47.04; 3 years - \$147.64; 5 years - \$257.57; 10 years - \$579.17

The example outlined above was for illustrative purposes only and does not represent the actual fees and expenses or the past or future performance of the Fund. Actual future fees and expenses may be higher or lower than those shown.

Fees and expenses are only one of several factors that participants and beneficiaries should consider when making investment decisions.

State Street assumes no liability in connection with the accuracy or completeness of the plan-level expense information provided by CalPERS Supplemental Income 457 Plan or any performance information to the extent it is based on such plan-level expense information.
