## INDEPENDENT AUDITORS' REPORT

The Board of Trustees  
West Valley-Mission Community College District  
Saratoga, California

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the business-type activities and the discretely presented component units, Mission-West Valley Land Corporation and West Valley-Mission Community College Foundation of West Valley-Mission Community College District (the District) as of and for the years ended June 30, 2021, and 2020 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the Table of Contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *2020-2021 Contracted District Audit Manual*, issued by the California Community Colleges Chancellor's Office. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinion**

In our opinion, and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component units of the District as of June 30, 2021, and 2020, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## **Emphasis of Matter Regarding Change in Accounting Principle**

During the year ended June 30, 2021, the District adopted the provisions of Governmental Accounting Standards Board Statement (GASB) No. 84, *Fiduciary Activities*. As a result of the implementation of this standard, the District reported a restatement for a change in accounting principle (see Note 16). Our auditors' opinion was not modified with respect to the restatement.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require the Management's Discussion and Analysis, the Schedule of Changes in Net OPEB Liability and Related Ratios, the Schedule of Contributions – OPEB, the Schedule of Proportionate Share of the Net Pension Liability, and the Schedule of Contributions – Pensions as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information listed in the Table of Contents, including the Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated October 5, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
JUNE 30, 2021**

---

**INTRODUCTION**

The West Valley-Mission Community College District was established in 1963 and provides higher education in Santa Clara County and a portion of Santa Cruz County. The District operates two colleges. West Valley College, founded in 1964, is situated on a 143-acre campus in the foothills of the Santa Cruz Mountains in Saratoga, California. Mission College, which opened in 1975, is located on a 164-acre site in Santa Clara, California. The Colleges are each fully accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC).

The governing body of the District is the Board of Trustees, which includes seven voting members elected by the voters of the District within seven trustee areas. The Trustees serve four-year terms. Elections for trustee positions to the Board are held every two years, alternating between three and four positions. The management and policies of the District are administered by a Board-appointed Chancellor.

**USING THIS ANNUAL REPORT**

The purpose of this annual report is to provide readers with information about the activities, programs, and financial condition of the West Valley-Mission Community College District (the District) as of June 30, 2021 and June 30, 2020. This section of the annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended June 30, 2021. Please read it in conjunction with the District's financial statements, which immediately follow this section. Responsibility for the completeness and accuracy of this information rests with the District Management.

**OBJECTIVES OF THE AUDIT**

The audit of the West Valley-Mission Community College District had the following objectives:

- To express an opinion as to whether the financial statements are fairly presented, in all material respects, in conformity with U. S. generally accepted accounting principles (GAAP).
- To evaluate the adequacy of the systems and procedures affecting compliance with government audit standards, guides, procedures, statutes, rules, and regulations which could have a material effect on the financial statements in accordance with government auditing standards.
- To review and report on the District's system of internal controls related to major federal programs.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

The Annual report consists of three basic financial statements that provide information on the District as a whole:

- The Statements of Net Position – page 19
- Statements of Revenues, Expenses, and Changes in Net Position – page 20
- The Statements of Cash Flows – page 21

The focus of the Statement of Net Position is designed to be similar to the bottom line results of the District. This statement combines and consolidates current financial resources with capital assets and long-term obligations.

The Statement of Revenues, Expenses, and Changes in Net Position focuses on the costs of the District's operational activities, which are supported primarily by local property taxes, enrollment fees and State categorical revenues. Activities are reported as either operating or non-operating. The District depends on local funding for operating expenses; however, the operating activity reflects a loss because the financial reporting model classifies certain revenues as non-operating.

The Statement of Cash Flows provides an analysis of the sources and uses of cash within the operations of the District. This statement helps measure the District's ability to meet financial obligations as they mature.

The California Community Colleges Chancellor's Office has recommended that all State community colleges follow the Business-Type Activity (BTA) model for financial reporting purposes.

**STUDENT ATTENDANCE HIGHLIGHTS**

The District reported 10,625 FTES on the CCFS-320 Annual Student Attendance Report (P-3), a decrease from the previous year’s P-3 report. The decrease of FTES was due to effects of the Covid-19 Pandemic and a decline in enrollment.

Enrollment continues to be a major challenge and opportunity for the District. The colleges are aggressively pursuing additional enrollment with a combination of strategies that include marketing; targeted recruitment and outreach; program development; and additional class sections both on and off-site.

This chart illustrates total credit and noncredit FTES reported on the CCFS-320 Annual Student Attendance Report. Total FTES decreased by 1,075 or 9.19 percent, from FY 2019-20 to FY 2020-21.

**FINANCIAL HIGHLIGHTS**

- In fiscal year 2020-21, the District received sufficient revenues from local property taxes and student fees to fully fund the State's base revenue. This is the ninth consecutive year the District has been self-supporting or "community supported." As a community supported district, the District is not affected by State shortfalls or mid-year reductions.
- The District gave a 5.00% salary enhancement to employees represented by bargaining units who had settled their contracts with the District and "meet and confer" units. Actual revenues exceeded the Adopted Budget by approximately \$3.5 million due to increases in property taxes.
- During fiscal year 2020-21, student enrollment fees were \$46 per unit, and the non-resident tuition fee was \$290 per unit. The District did not apply a foreign citizen capital outlay fee.
- The District ended fiscal year 2020-21 with an Unrestricted General Fund balance of \$73.5 million. The amount consists of a five percent reserve of \$7.7 million and a contingency reserve of \$4.6 million. The Board of Trustees has set a goal to maintain at least a five percent reserve in the Unrestricted General fund. Board policy also allows the District to set aside no more than a three percent contingency reserve to cover unanticipated expenditures during the year. The fund balance also includes \$38.2 million in community support funds reserved for future allocations, \$5.7 million set aside for banked leave liability, and \$16.3 million for the Lease Revenue Bond debt obligation. The remainder of the fund balance has been assigned to prepayments, student material fees, and other purposes.
- Employees of the District are eligible for medical, dental, and vision coverage. The District's maximum benefits contributions for 2021 calendar year are limited to \$11,741 for single coverage, \$22,072 for two-party coverage, and \$28,270 for family coverage, annually.
- The District provides retirees hired before 1994 with lifetime medical benefits. The District has accounted for retiree benefits on a "pay-as-you-go" basis. An actuarial study determined the total Other Post Employment Benefit Plan (OPEB) Liability, as of June 30, 2021, was \$56.2 million. This amount represents the present value of all benefits to be paid for current and future retirees. The OPEB liability is fully funded.
- An on-going solution to cover the increased costs of retiree health benefits is to participate in the California Employer's Retirement Benefit Trust (CERBT). The CERBT is a Section 115 Trust and is Internal Revenue Service compliant. The Board of Trustees approved a resolution in fiscal year 2011-12 authorizing the District to "deposit all or a portion of the amounts received from the State of California in connection with the construction of capital projects into an irrevocable trust under the auspices of the CalPERS and invested therein in accordance with the investment criteria established by CalPERS." It is an irrevocable trust dedicated to the purposes of pre-funding OPEB. The balance in the trust account as of June 30, 2021, was \$88.1 million. The money from the trust fund has allowed the District to stabilize the cost of retiree benefits in the Unrestricted General Fund. The increase in cost can be covered by the OPEB Trust Fund.

**WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
JUNE 30, 2021**

**FINANCIAL HIGHLIGHTS**

- In fiscal year 2017-18, the Board of Trustees approved a resolution to establish a new trust fund administered through Public Agency Retirement Services (PARS) to invest funds to cover future CalSTRS and CalPERS pension rate increases. The Pension Rate Stabilization Program is an IRS-approved irrevocable trust program which is designed to prefund pension obligations. The plan allows the District to securely set aside funds in a tax-exempt, IRS-compliant prefunding vehicle to mitigate long-term contribution rate growth. The balance in the Pension Stabilization Trust Fund as of June 30, 2021, was \$24.4 million.
- Student financial aid provided to qualifying students throughout the District was approximately \$12.0 million. This aid is provided through grants and loans from the Federal government, the State Chancellor's Office, and local funding.

- Current assets consist of cash and cash equivalents, accounts receivable, and prepaid expenditures and other assets.
  - Cash and investments consist mainly of cash in the county treasury, local agency investment funds (LAIF), and investments from the Bond issuance.
  - The decrease of \$44.5 million is primarily due to increased expenditures in the capital project funds during the year.
- Non-current assets consist of the net OPEB asset and capital assets.
  - The net OPEB asset increased by \$9.2 million due to a combination of an increase in investment earnings and the decrease in the total OPEB liability.

**THE DISTRICT AS A WHOLE, continued**

- Capital assets (net of depreciation) are the historical value of land, buildings, construction in progress and equipment less depreciation.
- Net capital assets increased by \$57.9 million due to an increase to Construction in Progress for construction projects related to the General Obligation Bonds.
- Current liabilities consist of accounts payable, interest payable, unearned revenue, due to fiduciary funds, and long-term debt (current portion).
  - Accounts payable and accrued liabilities consist mainly of payables to vendors and accrued payroll benefits.
  - Unearned revenue relates to federal, state, and local program funds that were received, but not yet earned, as of the fiscal year end. Most grants are considered earned when spent up to the amount of the award.
  - The current portion of long-term obligations consists of the principal payment to be paid in the next fiscal year for the General Obligation Bonds, Revenue Bonds, and Compensated Absences.
  - The current liabilities increased by \$3.9 million primarily due to an increase in the current portion of long-term debt of \$2.7 million related to both the General Obligation Bonds and Lease Revenue Bonds. In addition, unearned revenues increased by \$1.0 million and accounts payable increased by \$0.6 million.
- Non-current liabilities consist of compensated absences, net pension liability, and long-term debt (non-current portion). It consists of all the long-term debt that is to be paid beyond the next fiscal year.
  - The non-current liabilities decreased by \$19.3 million due to payments on general obligation bonds and lease revenue bonds. In addition, the net pension liability and compensated absences increased.
- The net position increased by \$45.2 million due to the results of the changes in assets and liabilities noted above.

- Operating revenues consist of revenues from student tuition/fees and auxiliary enterprises.
  - The decrease of approximately \$0.4 million is due to the decline in tuition and fees.
  - Auxiliary revenue consists of community education funds and contract education revenues. The operation is self-supporting and contributes to the student programs on the campus. The amounts decreased from the prior year by \$0.2 million.
- Operating expenses consist of salaries/benefits, supplies, materials, other operating expenses, student financial aid disbursements, and depreciation.
  - Salaries and benefits expense decreased by \$11.8 million primarily due to an overall decline in the pension liability.

**OPERATING RESULTS FOR THE YEAR, continued**

- Non-operating revenues (expenses) primarily consist of property taxes, State and Federal revenues, and interest.
  - Property taxes decreased by \$11.6 million due to a reduction of one-time redevelopment (RDA) money during 2020-21.
  - Grants and contract revenues relate primarily to student financial aid as well as to specific Federal and State grants received for programs serving the students and programs of the District. The revenues are restricted and can only be expensed based on program guidelines. (Net change is an increase of \$8.7 million.)
  - Other non-operating revenues consist primarily of local grants and Land Corporation commitments. There was a decrease of \$7.8 million in FY 2020-21 due to bond premiums.
  - Other non-operating interest expense decreased \$8.1 million due to bond debt payments.

**CHANGES IN CASH POSITION**

The Statement of Cash Flows on pages 21 and 22 provides information about the cash receipts and payments during the year. This statement also assists users in assessing the District’s ability to meet its obligations as they come due and its need for external financing. The primary operating receipts are student tuition and fees. The primary operating expense of the District is the payment of salaries and benefits to staff.

While federal, state and local grants, property taxes, and enrollment fees are the primary source of non-capital related revenue, the GASB accounting standards require that this source of revenue is shown as non-operating revenue as it comes from the general resources of the State and not the primary users of the college’s programs and services – the students.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

Capital Assets

At June 30, 2021, the District had \$595.0 million of capital assets, including land, buildings, and furniture and equipment. At June 30, 2020, the District's capital assets were \$537.0 million. The District is currently in the middle of a major capital improvement program with construction on-going throughout the college campuses. These projects are primarily funded through the general obligation bonds. These projects are accounted for within the Construction in Progress account until the project is completed, at which time the cost of the buildings and/or improvements will be brought into the depreciable Buildings and Improvement category.

Capital projects are continuing through the 2021-22 fiscal year and beyond with primary funding through the general obligation bonds.

Debt Obligations

At the end of the 2020-21 fiscal year, the District had \$589.1 million of principal and accreted interest on general obligation bonds outstanding. These bonds are repaid annually in accordance with the obligation requirements through an increase in the assessed property taxes on property within the West Valley-Mission Community College District boundaries. In addition to the above obligations, the District is obligated to pay lease revenue bonds, vacation payout and faculty banked leave.

**BUDGETARY HIGHLIGHTS**

Over the course of the year, the District revises its budget as it deals with unexpected changes in revenues and expenditures. The Board of Trustees adopted the final budget for FY 2020-21 on October 6, 2020.

The District's operating costs have continually increased. Local funds are used to cover the increased operating costs.

The Administration is directed to consider the following in developing the budget:

1. Maintain effective instructional and student support programs and services to foster a learning-centered environment.
2. Seek growth in Full-time Equivalent Students (FTES) to efficiently manage enrollment and class sections.
3. Improve administrative systems and organizational structures to enhance efficiency and effectiveness.
4. Control the rising cost of health care benefits through plan design, aggressive negotiations with providers, hard audits of participants and collective bargaining.
5. Effectively manage cash to meet anticipated obligations.
6. Allocate resources to address accreditation recommendations.
7. Examine all possible assets of the District to determine how such assets can generate additional revenues and aggressively pursue community and business partnerships.

The 2020-21 budget was balanced with local funds. The District continues to maintain a prudent unrestricted general fund reserve of 5 percent and a board contingency reserve of no more than 3 percent.

**ECONOMIC FACTORS AFFECTING THE FUTURE OF THE WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT**

The economic position of the District is dependent on the collection of property taxes and student enrollment fees. In fiscal 2020-21, the District continued to achieve community support status. The District did not have a cash flow constraint during fiscal year 2020-21. The District will continue to monitor cash on a monthly basis to ensure there is sufficient cash to support daily operations.

Despite the challenges with the pandemic and uncertainties with the economy, the District is in a strong fiscal position. The District has set aside funds to fully cover the long-term OPEB liability. The District also set aside funds in an irrevocable trust to fund future rate increases for CalSTRS and CalPERS employer pension cost. The fund balance in the unrestricted general fund for fiscal year 2020-21 is approximately 50% when compared to total expenditures. The District is well-positioned to withstand future economic challenges that may be presented by the pandemic.

**ECONOMIC FACTORS AFFECTING THE FUTURE OF THE WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT, continued**

There are some economic factors that may impact the future of the District. As a community supported district, sudden changes to property values may impact property tax revenues. The impacts from the pandemic may be long term which will impact the way the District delivers instruction and services through remote learning and telecommuting. The District needs to maintain sufficient fund balance to ensure we can cover ongoing expenditures. Slow economic recovery may cause further reductions in enrollment. The ongoing pandemic has made it very difficult to transition students back to in-person learning. Changes in workforce may translate to increased demand for unique and innovative curriculum and modalities which may affect the delivery of instruction.

**WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2021 AND 2020**

---

**NOTE 1 – ORGANIZATION**

The West Valley-Mission Community College District (the District) was established in 1963 as a political subdivision of the State of California and is a comprehensive, public, two-year institution offering post-secondary educational services to residents of Santa Clara and Santa Cruz County. The District operates under a locally elected seven-member Board of Trustees form of government, which establishes the policies and procedures by which the District operates. The Board must approve the annual budgets for the General Fund, Special Revenue Funds, and Capital Project Funds, but these budgets are managed at the department level. Currently, the District operates two community colleges located within Santa Clara County, California. While the District is a political subdivision of the State of California, it is not a component unit of the State in accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 61. The District is classified as a Public Educational Institution under Internal Revenue Code Section 115 and is, therefore, exempt from Federal taxes.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Financial Reporting Entity**

The District follows GASB Statement No. 61, *Determining Whether Certain Organizations are Component Units*. This statement amends GASB Statement No. 14, *The Financial Reporting Entity*, to provide additional guidance to determine whether certain organizations, for which the District is not financially accountable, should be reported as component units based on the nature and significance of their relationship with the District. The District has determined that the West Valley-Mission Community College Foundation does not meet the criteria for inclusion under GASB 61. The three components used to determine the presentation are: providing a "direct benefit", the "environment and ability to access/influence reporting", and the "significance" criterion. As defined by accounting principles generally accepted in the United States of America and established by the Governmental Accounting Standards Board, the financial reporting entity consists of the primary government, the District, and the following component units:

- West Valley-Mission College District Financing Corporation
- Mission-West Valley Land Corporation
- West Valley-Mission Community College Foundation
- Mission College Center for Innovation and Technology

The *West Valley-Mission College District Financing Corporation* (the Corporation) is a legally separate organization component unit of the District. The Corporation was formed to provide financing assistance to the District for construction and acquisition of major capital facilities. The District appoints the Corporation's governing board. All accounting and administrative functions are performed by the District. The Corporation meets the criteria of the governing authority's ability to significantly influence operations and accountability for fiscal matters and the criteria for inclusion in the District's reporting entity and is reported as a blended component unit. The financial activities of the Corporation have been included in these financial statements in the Revenue Bond Debt Service Fund and the Capital Outlay Projects Fund. Individually-prepared financial statements are not prepared for the Corporation.

**WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2021 AND 2020**

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

The *Mission-West Valley Land Corporation* (MWVLC) is a non-profit organization under IRS Code Section 501(c)(3). The board of the MWVLC is the same as the District's. The MWVLC meets the criteria of the governing authority's ability to significantly influence operations and accountability for fiscal matters and the criteria for inclusion in the District's reporting entity. Its purpose is to provide programs that enhance and enrich the community life of the District both educationally and culturally. The financial activity of the MWVLC is reported as a separate discretely presented component unit. Individually-prepared financial statements can be obtained from District Finance Office.

The *West Valley-Mission Community Colleges Foundation* (the Foundation) is a non-profit organization under IRS Code Section 501(c)(3). The Foundation meets the criteria of the governing authority's ability to significantly influence operations and accountability for fiscal matters and the criteria for inclusion in the Districts reporting entity. It is dedicated to providing assistance to the students, teachers, and programs of the West Valley and Mission Colleges. The financial activity of the Foundation is reported as a separate discretely presented component unit. Individually-prepared financial statements can be obtained from District Finance Office.

The *Mission College Center for Innovation and Technology* (the Center) is a non-profit organization under IRS Code Section 501(c)(3). The Center does not meet the criteria of the governing authority's ability to significantly influence operations and accountability for fiscal matters and the criteria for inclusion in the Districts reporting entity. It is dedicated to providing assistance to the students, teachers, and programs of the West Valley and Mission Colleges. The financial activity of the Center is not included in this report. Individually-prepared financial statements can be obtained from District Finance Office.

**Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

For financial reporting purposes, the District is considered a special-purpose government engaged only in business-type activities as defined by GASB statements No. 34 and No. 35, as amended by GASB Statements No. 37, No. 38, and No. 39. This presentation provides a comprehensive entity-wide perspective of the District's assets, liabilities, activities, and cash flows and replaces the fund group perspective previously required. Accordingly, the District's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. The significant accounting policies followed by the District in preparing these financial statements are in accordance with accounting principles generally accepted in the United States of America as prescribed by GASB. Additionally, the District's policies comply with the California Community Colleges Chancellor's Office *Budget and Accounting Manual*. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency and intra-fund transactions have been eliminated.

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are classified as operating revenues. These transactions are recorded on the accrual basis when the exchange takes place. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within 60 days of fiscal year-end. For the District, operating revenues consist primarily of student fees and auxiliary through the bookstore and cafeteria.

**WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2021 AND 2020**

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include State apportionments, property taxes, certain Federal and State grants, entitlements, and donations. Property tax revenue is recognized in the fiscal year received. State apportionment revenue is earned based upon criteria set forth from the Community Colleges Chancellor's Office and includes reporting of full-time equivalent student (FTES) attendance. The corresponding apportionment revenue is recognized in the period the FTES are generated. Revenue from Federal and State grants and entitlements are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements may include time and/or purpose requirements.

Operating expenses are costs incurred to provide instructional services including support costs, auxiliary services, and depreciation of capital assets. All other expenses not meeting this definition are reported as nonoperating. Expenses are recorded on the accrual basis as they are incurred, when goods are received, or services are rendered.

The District reports are based on all applicable Governmental Accounting Standards Board (GASB) pronouncements, as well as applicable Financial Accounting Standards Board (FASB) pronouncements. The District has elected not to apply FASB pronouncements issued after November 30, 1989.

The financial statements are presented in accordance with the reporting model as prescribed in GASB Statement No. 34, *Basic Financial Statements and Management's Discussions and Analysis for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements and Management's Discussions and Analysis for Public Colleges and Universities*, as amended by GASB Statements No. 37, No. 38, and No. 39. The business-type activities model followed by the District requires the following components of the District's financial statements:

- Management's Discussion and Analysis
- Basic Financial Statements for the District as a whole including:
  - Statements of Net Position – Primary Government
  - Statements of Revenues, Expenses and Changes in Net Position – Primary Government
  - Statements of Cash Flows – Primary Government
  - Financial Statements of Fiduciary Funds including:
    - Statements of Net Position – Fiduciary Funds
    - Statements of Changes in Net Position – Fiduciary Funds
- Notes to Financial Statements

**WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2021 AND 2020**

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

**The following is a summary of the more significant policies:**

**Cash and Cash Equivalents**

The District's cash and cash equivalents are considered to be unrestricted cash on hand, demand deposits, and short-term unrestricted investments with original maturities three months or less from the date of acquisition. Cash equivalents also include unrestricted cash with county treasury balances for purposes of the statement of cash flows. Restricted cash and cash equivalents represent balances restricted to external sources such as grants and contracts or specifically restricted for the repayment of capital debt.

**Investments**

In accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and External Investment Pools, investments held at June 30, 2021 and 2020, are stated at fair value. Fair value is estimated based on quoted market prices at year-end. Short-term investments have an original maturity date greater than three months, but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at a time of purchase.

**Restricted Assets**

Restricted assets arise when restrictions on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other government or imposed by enabling legislation. Restricted assets represent investments required by debt covenants to be set aside by the District for the purpose of satisfying certain requirements of the bonded debt.

**Accounts Receivable**

Accounts receivable include amounts due from the Federal, State and/or local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the District's grants and contracts. Accounts receivable also consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty, and staff, the majority of each residing in the State of California. The District provides for an allowance for uncollectible accounts as an estimation of amounts that may not be received. This allowance for potentially uncollectible student fees is based upon management's estimates and analysis. The allowance was estimated at \$666,715 and \$970,970, respectively, as of June 30, 2021 and 2020.

**Prepaid Expenses**

Prepaid expenditures or expenses represent payments made to vendors and others for services that will benefit periods beyond June 30.

**WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2021 AND 2020**

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

**Capital Assets and Depreciation**

Capital assets are long-lived assets of the District as a whole and include land, construction-in-progress, buildings, land improvements, and equipment. The District maintains an initial unit cost capitalization threshold of \$100,000 for land and buildings, \$50,000 for land improvements and building improvements and \$5,000 for equipment and an estimated useful life greater than one year. Assets are recorded at historical cost, or estimated historical cost, when purchased or constructed. The District does not possess any infrastructure assets (as defined by the GASB). Donated capital assets are recorded at estimated fair market value at the date of donation. Improvements are capitalized; the costs of routine maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are charged as an operating expense in the year in which the expense was incurred. Major outlays for capital improvements are capitalized as construction-in-progress as the projects are constructed.

Depreciation of capital assets is computed and recorded utilizing the straight-line method. Estimated useful life of the various classes of depreciable capital assets are as follows: buildings, 50 years; building improvements, 25 years, land improvements, 20 years; and equipment, 5 to 10 years.

**Accrued Liabilities and Long-term Obligations**

All payables, accrued liabilities, and long-term obligations are reported in the entity-wide financial statements.

**Debt Issuance Costs, Premiums, and Discounts**

Bond premiums and discounts, as well as issuance costs related to prepaid issuance cost, are amortized over the life of the bonds using the straight - line method.

**Deferred Outflows/Inflows of Resources**

In addition to assets, the Statement of Net Position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District reports deferred outflows of resources for the pension contributions made after the measurement date of the Net Pension Obligation.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports deferred inflows of resources for deferred charges on bond refunding and the difference between actual and expected rate of return on investments specific to the net pension liability.

**WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2021 AND 2020**

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

**Pensions**

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions and pension expense, information about the fiduciary net position of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

**Compensated Absences**

Accumulated unpaid employee vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the entity-wide financial statements. The current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignation and retirements that occur prior to year-end that have not yet been paid within the fund from which the employees who have accumulated the leave are paid. The District also participates in "load banking" with eligible academic employees whereby the employee may teach extra courses in one period in exchange for time off in another period. The liability for this benefit is reported on the entity-wide financial statements.

Sick leave is accumulated without limit for each employee based upon negotiated contracts. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, retirement credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Retirement credit for unused sick leave is applicable to all employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full time.

The District also established policy to accrue faculty banked leave. The rates to accrue banked leave are as follows:

Banked Load Limit	Basis of Accrual
Less than 1.0	Prevailing associate / part-time faculty rate
1.0	Full-time faculty rate
1.01 but less than 2.0	First 1.0 at full-time faculty rate, the excess at part-time faculty rate
2.0	Full-time faculty rate
2.01 and more	First 2.0 at full-time faculty rate, the excess at part-time faculty rate

**WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2021 AND 2020**

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

**Compensated Absences, continued**

A full-time faculty member cannot earn greater than 2.0 banked loads in addition to the 2.0 of pre-retirement banked load. The absolute accumulative total of banked load at any time is 4.0. The full liability for this benefit is reported on the entity-wide financial statements.

**Unearned Revenue**

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized. Unearned revenue includes (1) amounts received for tuition and fees prior to the end of the fiscal year that are related to the subsequent fiscal year and (2) amounts received from Federal and State grants received before the eligibility requirements are met are recorded as deferred revenue.

**Noncurrent Liabilities**

Noncurrent liabilities include bonds and notes payable, compensated absences, capital lease obligation and OPEB obligations with maturities greater than one year.

**Net Position**

GASB Statements No. 34 and No. 35 report equity as "Net Position" and represents the difference between assets and liabilities. The net position is classified according to imposed restrictions or availability of assets for satisfaction of District obligations according to the following net asset categories:

**Net Investment in Capital Assets:** Consists of capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets. To the extent debt has been incurred, but not yet expended for capital assets, such accounts are not included as a component invested in capital assets – net of related debts.

Net position is reported as restricted when there are limitations on their use, either through enabling legislation adopted by the District, or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted resources are available.

**Unrestricted:** Net position that is not subject to externally imposed constraints. Unrestricted net position may be designated for specific purposes by action of the Board of Trustees or may otherwise be limited by contractual agreements with outside parties. Substantially all unrestricted net position is designated for educational and general operations of the District.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

**Net Position, continued**

When both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first and the unrestricted resources when they are needed.

**State Apportionments**

Apportionments from the State are based on financial and statistical information of the previous year. Any corrections due to the recalculation of the apportionment are made in February of the subsequent year. When known and measurable, these reclassifications and corrections are accrued in the year in which the FTES are generated. In a year when a community college district receives sufficient revenue from local property taxes and fees to fully fund or exceed their base revenue amount, the District will not receive any apportionment revenue from the state, therefore, the District will be self-supporting or community supported.

**Property Tax**

Secured property taxes attach as an enforceable lien on property as of January 1. The County Assessor is responsible for assessment of all taxable real property. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Santa Clara bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

The voters of the District passed a General Obligation Bond Measure H in 2004, Measure C in 2012, and Measure W in 2018 for the acquisition, construction and remodeling of certain District property. As a result of the passage of the Bonds, property taxes are assessed on the property within the District specifically for the repayment of the debt incurred. The taxes are billed and collected as noted above and remitted to the District when collected.

**Scholarships, Discounts, and Allowances**

Student tuition and fee revenue is reported net of scholarships, discounts, and allowances. Fee waivers approved by the Board of Governors are included within the scholarships, discounts, and allowances in the Statement of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances represent the difference between stated charges for enrollment fees and the amount that is paid by students or third parties making payments on the students' behalf.

**Federal Financial Assistance Programs**

The District participates in federally funded Pell Grants, SEOG Grants, Federal Work-Study, as well as other programs funded by the Federal government agencies. Financial aid to students is either reported as operating expense or scholarship allowances, which reduce revenues. The amount reported as operating expense represents the portion of aid that was provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to students in the form of reduced tuition. These programs are audited in accordance with Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. During the years ended June 30, 2021 and 2020, the District distributed \$274,902 and \$507,066, respectively, in direct lending through the U.S. Department of Education. These amounts have been included as revenues or expenses within the accompanying financial statements as the amounts were passed directly to qualifying students, the amounts are also included on the Schedule of Federal Financial Assistance.

**On-Behalf Payments**

GASB Statement No. 24 requires direct on-behalf payments for fringe benefits and salaries made by one entity to a third-party recipient for the employees of another legally separate entity be recognized as revenue and expenditures by the employer entity. The State of California makes direct on-behalf payments to CalSTRS and CalPERS on behalf of all community colleges in California. The amount of the on-behalf payments made for the District for the year ended June 30, 2021, was \$6,184,600 for CalSTRS. Refer to Note 13 for additional information regarding the CalSTRS and CalPERS on behalf payments. These amounts are reflected in the District's audited financial statements.

**Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Component Units – Mission-West Valley Land Corporation and West Valley-Mission Community Colleges Foundation Presentation**

The Mission-West Valley Land Corporation (Land Corporation) and the West Valley-Mission Community Colleges Foundation (Foundation) present their financial statements in accordance with Financial Accounting Codifications. Under these reporting requirements, the component units are required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. As permitted by the codification, the component units do not use fund accounting.

**Permanently Restricted Net Assets:** Net assets subject to donor-imposed stipulations that they be maintained permanently by the Organization. Generally, the donors of these assets permit the organization to use all or part of the income earned on related investments for general or specific purposes.

**Temporarily Restricted Net Assets:** Net assets subject to donor-imposed stipulations that will be met by actions of the Organizations and/or the passage of time.

**Unrestricted Net Assets:** Net assets not subject to donor-imposed restrictions.

Revenues and expense are recorded when incurred in accordance with the accrual basis of accounting. Revenues are reported as increases in the unrestricted net assets classification unless use of the related assets is limited by donor-imposed restrictions. Contributions, including unconditional promises to give, are recognized as revenue in the period received. Conditional promises to give are not recognized as revenue until the conditions on which they depend are substantially met. Contributions for in-kind gifts from outside sources are recorded at their fair market value on the date of donation.

Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by donor stipulation or by law.

Investments are reported at fair value in accordance with FASB Accounting Standards Codification (ASC) 820., Fair Value Measurements and Disclosures.

The component units are not-for-profit organizations that are exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and related California Franchise Tax Codes.

**New Accounting Pronouncements**

During the fiscal year ended June 30, 2021, the District implemented GASB Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

In January 2017, the GASB issued Statement No. 84, Fiduciary Activities. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all State and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Early implementation is encouraged. The District has implemented GASB Statement No. 84 for the year ending June 30, 2021.

In June 2017, the GASB issued Statement No. 87, Leases. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The requirements of this Statement are effective for the reporting periods beginning after June 15, 2021. Early implementation is encouraged. The District is in the process of determining the effect on the financial reporting.

**Comparative Financial Information**

Comparative financial information for the prior year has been presented for additional analysis; certain amounts presented in the prior year data may have been reclassified in order to be consistent with the current year's presentation.

**NOTE 3 - DEPOSITS AND INVESTMENTS**

**Policies and Practices**

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

**Investment in County Treasury** - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section (ESC) 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Cash on hand and in banks	\$ 3,317,202
Investments	503,667,120
Total Deposits and Investments	<u>\$ 506,984,322</u>

**Interest Rate Risk**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County pool and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

**Weighted Average Maturity**

Information about the sensitivity of the fair value of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investments by maturity:

Investment Type	Fair Value	Weighted Average Maturity
U.S. Treasury Cash Reserves	\$ 2,573,330	46 Days

**Credit Risk**

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investments in the County pool are not required to be rated, nor have they been rated as of June 30, 2021.

Investment Type	Fair Value	Rating as of Year-End

	<u>\$ 503,667,120</u>	<u>\$ 141,973,904</u>	<u>\$ 361,693,216</u>

**Custodial Credit Risk – Deposits**

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk. However, the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit.) The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2021, approximately \$988,262 of the District's bank balance was in excess of FDIC insured amounts, however, this amount was not exposed to custodial credit risk because of the pledged securities previously described.

**Custodial Credit Risk - Investments**

This is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The California government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments.

**NOTE 4 - FAIR VALUE MEASUREMENTS**

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets that the District has the ability to access at the measurement date. Level 1 assets may include debt and equity securities that are traded in an active exchange market, are highly liquid and are actively traded in over-the-counter markets.

Level 2 - Observable inputs, other than Level 1 prices, such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, such as interest rates and curves observable at commonly quoted intervals, implied volatilities, and credit spreads. For financial reporting purposes, if an asset has a specified term, a Level 2 input is required to be observable for substantially the full term of the asset.

Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonable available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

Uncategorized - Investments in the Santa Clara County Treasury Investment Pool and/or Local Agency Investment Funds/State Investment Pools are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

The District's fair value measurements are as follows at June 30, 2021:

Investment Type	Fair Value	Fair Value Measurements Using			Uncategorized
		Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	
U.S. Treasury Cash Reserves	\$ 2,573,330	\$ -	\$ 2,573,330	\$ -	\$ -

**NOTE 11 - POSTEMPLOYMENT BENEFITS**

For the fiscal year ended June 30, 2021, the District reported net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense for the following plans:

OPEB Plan	Net OPEB Liability (Asset)	Deferred Outflows of Resources	Deferred Inflows of Resources	OPEB Expense (Benefit)
District Plan	\$ (21,394,081)	\$ -	\$ 1,033,804	\$ (9,362,681)

**Plan Description**

The Postemployment Benefit Plan (the "Plan") is a single-employer defined benefit healthcare plan administered by West Valley-Mission Community College District. The Plan provides medical and dental insurance benefits to eligible retirees and their spouses.

	Faculty	Classified	Management
Benefit types provided	Medical and Dental	Medical and Dental	Medical and Dental
Duration of benefits	Lifetime	Lifetime	Lifetime
Required services	10 years*	10 years*	10 years*
Minimum age	55	50	50
Dependent coverage	Yes	Yes	Yes
District contribution	50-100%*	50-100%*	50-100%*
District cap	None	None	None

\*Retirees receive 50% benefits for 10 years of service plus 10% for additional years of service to 100% for 15 years of service. Employees hired after January 1, 1994 are not eligible for medical benefits upon retirement.

**Contribution Information**

The contribution requirements of plan members and the District are established and may be amended by the District, the District's bargaining units and unrepresented groups. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually through the agreements between the District, the District's bargaining units and the unrepresented groups. For fiscal year 2020-21, the District did not contribute to the plan. The District recognizes the costs of providing those benefits and related costs when paid.

**Employees Covered by Benefit Term**

The following is a table of plan participants as of the June 30, 2020 measurement date:

	Number of Participants
Inactive Employees Receiving Benefits	494
Active Employees	32
	<u>526</u>

**Contributions to Trust**

Eligible employees are not permitted to make contributions to the Trust. The Plan administrator (CalPERS) shall, on behalf of the employer (District), make all contributions to the Trustee. All contributions shall be paid to the Trustee for investment and reinvestment pursuant to the terms of the trust agreement. The District does not have contractually required contribution rates, but contributes in an amount sufficient to fully fund the total OPEB obligation over a period not to exceed 30 years. The District has a net OPEB asset of \$21,394,081 as of June 30, 2021.

**OPEB Plan Investments**

The plan discount rate of 6.0% was determined using the following asset allocation and assumed rate of return:

Asset Class	Target Allocation	Long-Term Expected Rate of Return
Global Equity	22%	5.50%
Global Debt Securities	49%	2.35%
Inflation Assets	16%	1.50%
Commodities	5%	1.75%
REITs	8%	3.65%
Total	<u>100%</u>	

Rolling periods of time for all asset classes in combination were used to appropriately reflect correlation between asset classes. This means that the average returns for any asset class do not necessarily reflect the averages over time individually, but reflect the return for the asset class for the portfolio average. Additionally, the historic 30-year real rates of return for each asset class along with the assumed long-term inflation assumption was used to set the discount rate. The investment return was offset by assumed investment expenses of 25 basis points. It was further assumed that contributions to the plan would be sufficient to fully fund the obligation over a period not to exceed 30 years.

**NOTE 12 - RISK MANAGEMENT**

**Property and Liability Insurance Coverages**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year ending June 30, 2021, the District contracted with the Bay Area Community College District JPA for property and general insurance coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

**Workers' Compensation**

For fiscal year 2020-21, the District participated in the Northern California Community College Pool ("NCCCP") for workers' compensation insurance coverage. The intent of the JPA is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the JPA. The workers' compensation experience of the participating districts is calculated as one experience, and a common premium rate is applied to all districts in the JPA. Each participant pays its workers' compensation premium based on its individual rate. Total savings are then calculated, and each participant's individual performance is compared to the overall saving. A participant will then either receive money from or be required to contribute to the "equity-pooling fund." This "equity pooling" arrangement ensures that each participant shares equally in the overall performance of the JPA. Participation in the JPA is limited to K-12 and community college districts that can meet the JPA's selection criteria.

**NOTE 13 - EMPLOYEE RETIREMENT SYSTEMS**

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of CalSTRS and classified employees are members of CalPERS.

For the fiscal year ended June 30, 2021, the District reported its proportionate share of the net pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources for each of the above plans as follows:

Pension Plan	Collective Net Pension Liability	Collective Deferred Outflows of Resources	Collective Deferred Inflows of Resources	Collective Pension Expense
CalSTRS	\$ 87,145,766	\$ 24,737,429	\$ 2,469,462	\$ 12,899,821

**California State Teachers' Retirement System (CalSTRS)**

**Plan Description**

The District contributes to the California State Teachers' Retirement System (CalSTRS); a cost-sharing multiple employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement and disability benefits and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, 7919 Folsom Blvd., Sacramento, CA 95826 or [www.calstrs.com](http://www.calstrs.com).

**Benefits Provided**

The State Teachers' Retirement Program (STRP) provides retirement, disability, and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age, and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program, and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the State is the sponsor of the STRP and obligor of the trust. In addition, the State is both an employer and nonemployer contributing entity to the STRP. The District contributes exclusively to the STRP Defined Benefit Program; thus disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2021, are summarized as follows:

	STRP Defined Benefit Plan	
	On or before December 31, 2012	On or after January 1, 2013
Hire date	December 31, 2012	January 1, 2013

**Contributions**

Required member, District, and State of California contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with AB 1469, employer contributions into the CalSTRS will be increasing to a total of 19.1 percent of applicable member earnings phased over a seven-year period. The contribution rates for each plan for the year ended June 30, 2021, are presented above, and the District's total contributions were \$8,107,389.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2021, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 87,145,766
State's proportionate share of the net pension liability associated with the District	<u>44,923,289</u>
Total	<u>\$ 132,069,055</u>

The net pension liability was measured as of June 30, 2020. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating college districts and the State, actuarially determined. The District's proportionate share for the measurement periods of June 30, 2020 and June 30, 2019, was 0.090 percent and 0.084 percent, respectively, resulting in a net increase in the proportionate share of 0.006 percent.

For the year ended June 30, 2021, the District recognized pension expense of \$12,899,821. In addition, the District recognized pension expense and revenue of \$4,581,379 for support provided by the State. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between projected and actual earnings on plan investments	\$ 2,069,542	\$ -
Differences between expected and actual experience	153,771	2,456,120

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows/(inflows) of resources related to pensions will be recognized as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2022	\$ 2,585,779
2023	4,735,414

**Actuarial Methods and Assumptions**

Total pension liability for STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2019 and rolling forward the total pension liability to June 30, 2020. The financial reporting actuarial valuation as of June 30, 2019, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2019
Measurement date	June 30, 2020
Experience study	July 1, 2015, through June 30, 2018
Actuarial cost method	Entry Age Normal
Discount rate	7.10%
Investment rate of return	7.10%
Consumer price inflation	2.75%
Wage growth	3.50%

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on RP2000 series tables adjusted to fit CalSTRS experience.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant. Based on the model for CalSTRS consulting actuary investment practice, a best estimate range was determined assuming the portfolio is re-balanced annually and that the annual returns are lognormally distributed and independent from year to year to develop expected percentile for the long-term distribution of annualized returns.

The assumed asset allocation is based on board policy for target asset allocation in effect on February 2, 2012, the date the current experience study was approved by the board. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

	100%	

\*20-year geometric average

**Discount Rate**

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

	1% Decrease (6.10%)	Current Discount Rate (7.10%)	1% Increase (8.10%)

**California Public Employees' Retirement**

**System (CalPERS) Plan Description**

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS); a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95811 or [www.calpers.ca.gov](http://www.calpers.ca.gov).

**Benefits Provided**

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or age 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2021, are summarized as follows:

	School Employer Pool (CalPERS)	
	On or before December 31, 2012	On or after January 1, 2013

**Contributions**

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contribution rates are expressed as a percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2021, are presented above, and the total District contributions were \$7,999,936.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

As of June 30, 2021, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$75,166,828. The net pension liability was measured as of June 30, 2020. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating college districts, actuarially determined. The District's proportionate share for the measurement periods of June 30, 2020 and June 30, 2019, was 0.245 percent and 0.238 percent, respectively, resulting in a net increase in the proportionate share of 0.007 percent.

For the year ended June 30, 2021, the District recognized pension expense of \$13,409,501. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between projected and actual earnings on plan investments	\$ 1,564,734	\$ -
Differences between expected and actual experience	3,728,044	-

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows/(inflows) of resources related to pensions will be recognized as follows:

**Actuarial Methods and Assumptions**

Total pension liability for the Special Enrollment Period (SEP) was determined by applying updated procedures to a financial reporting actuarial valuation as of June 30, 2019, and rolling forward the total pension liability to June 30, 2020. The financial reporting actuarial valuation as of June 30, 2019, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2019
Measurement date	June 30, 2020
Experience study	July 1, 1997, through June 30, 2015
Actuarial cost method	Entry Age Normal
Discount rate	7.15%
Investment rate of return	7.15%
Consumer price inflation	2.50%
Wage growth	Varies by entry age and service

Mortality assumptions are based on mortality rates resulting from the most recent CalPERS experience study adopted by the CalPERS Board. For purposes of the post-retirement mortality rates, those revised rates include five years of projected ongoing mortality improvement using Scale AA published by the Society of Actuaries.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations, as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first ten years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund.

**NOTE 13 - EMPLOYEE RETIREMENT SYSTEMS, continued**

The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns.

The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class*	Assumed Asset Allocation	Real Return Years 1 - 10**	Real Return Years 11+***
Global Equity	50%	4.80%	5.98%
Fixed Income	28%	1.00%	2.62%

Real Assets	13%	3.75%	4.93%
Liquidity	1%	0.00%	-0.92%

\*In the System's CAFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.

\*\*An expected inflation of 2.0% used for this period

\*\*\*An expected inflation of 2.92% used for this period

**Discount Rate**

The discount rate used to measure the total pension liability was 7.15 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

	1% Decrease (6.15%)	Current Discount Rate (7.15%)	1% Increase (8.15%)

**Social Security**

As established by Federal law, all public-sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by Social Security or an alternative plan. The District has elected to use Social Security as its alternative plan for full time employees. Contributions made by the District and an employee vest immediately. The District contributes 6.2 percent of an employee's gross earnings. An employee is required to contribute 6.2 percent of his or her gross earnings to the pension plan.

**Alternative Plan**

The District offers Accumulation Program for Part-Time and Limited Service Employees (Apple Plan) approved in 1991 for part-time employees who are not members of CalSTRS or CalPERS. The District contributes 4 percent of an employee's salary on behalf of the employee, and employees are required to contribute 3.5 percent of their salary to the APPLE plan.

**On-Behalf Payments**

The District was the recipient of on-behalf payments made by the State of California to CalSTRS for community college education. These payments consist of state general fund contributions of approximately \$6,184,600 to CalSTRS.

**NOTE 14 - COMMITMENTS AND CONTINGENCIES**

**Grants**

The District receives financial assistance from Federal, State and Local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies.

**Litigation**

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2021.

The District pays annual premiums for its property and general liability and workers' compensation coverage. The relationship between the District and the JPA is such that it is not a component unit of the District for financial reporting purposes.

The JPAs have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, transactions between the JPAs and the District are included in these statements. Audited financial statements are available from the respective entities. The District's share of year-end assets, liabilities, or fund equity has not been calculated. During the year ended June 30, 2021, the District made payments of \$1,140,473 and \$765,983 to NCCCP and BACCD, respectively.

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION  
JUNE 30, 2021**

---

**NOTE 1 - PURPOSE OF SCHEDULES**

**Schedule of Changes in Net OPEB Liability and Related Ratios**

The Schedule of Changes in Net OPEB liability is presented to illustrate the elements of the District's Net OPEB liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

**Schedule of Contributions – OPEB**

This schedule presents information on the District's actuarially determined contribution, contributions in relation to the actuarially determined contribution, and any excess or deficiency related to the actuarially determined contribution. In the future, as data becomes available, 10 years of information will be presented.

**Schedule of Proportionate Share of the Net Pension Liability**

This schedule presents information on the District's proportionate share of the net pension liability (NPL), the plans' fiduciary net positions and, when applicable, the State's proportionate share of the NPL associated with the District. In the future, as data becomes available, ten years of information will be presented.

**Schedule of Contributions – Pensions**

This schedule presents information on the District's required contribution, the amounts actually contributed, and any excess or deficiency related to the required contribution. In the future, as data becomes available, ten years of information will be presented.

**Changes in Benefit Terms**

There were no changes in benefit terms since the previous valuation for either CalSTRS or CalPERS.

**Changes in Assumptions**

There were no change in discount rates from the previous valuation for either CalSTRS or CalPERS.

**NOTE 1 - PURPOSE OF SCHEDULES**

**District Organization**

This schedule provides information about the District’s governing board members and administration members.

**Schedule of Expenditures of Federal Awards**

The accompanying schedule of expenditures of Federal awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (Part 200), Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The District has not elected to use the ten percent de minimis cost rate as covered in Section 200.414 Indirect (F&A) costs of the Uniform Guidance.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenses, and Changes in Net Assets-Primary Government and the related expenditures reported on the Schedule of Federal Awards. The reconciliation amounts consist primarily of funds that in the previous period were recorded as revenues but were unspent. These unspent balances have been expended in the current period. These unspent balances are reported as legally restricted ending balances within the Statement of Net Position-Primary Government.

	CFDA

NOTE TO SUPPLEMENTARY INFORMATION  
JUNE 30, 2021**

---

**NOTE 1 - PURPOSE OF SCHEDULES, continued**

**Schedule of Workload Measures for State General Apportionment – Annual/Actual Attendance**

Full-Time Equivalent Students (FTES) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds, including restricted categorical funding, are made to community college districts. These schedules provide information regarding the annual attendance measurements of students throughout the District.

**Reconciliation of the Education Code Section 84362 (50 Percent Law) Calculation**

ECS 84362 requires the District to expend a minimum of 50 percent of the unrestricted General fund monies on salaries of classroom instructors. This is reported annually to the State Chancellor's Office. This schedule provides a reconciliation of the amount reported to the State Chancellor's Office and the impact of any audit adjustments and/or corrections noted during the audit.

**Proposition 30 Education Protection Account Expenditure Report**

This schedule provides the District's summary of receipts and uses of the monies received through the EPA.

**Reconciliation of Annual Financial and Budget Report (CCFS-311) with Audited Financial Statements**

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Form CCFS-311 to the District's audited financial statements.

**Reconciliation of Fund Equity to Net Position**

The schedule provides a reconciliation of the adjustments necessary to bring the District's internal fund financial statements prepared on a modified accrual basis, to the entity-wide full accrual basis financial statements required under GASB Statements No. 34 and No. 35. business-type activities reporting model.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Board of Trustees  
West Valley-Mission Community College District  
Saratoga, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States the financial statements of the business-type activities, the aggregate discretely presented component units, and the aggregate remaining fund information of West Valley-Mission Community College District (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 5, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards

## **District's Response to Findings**

West Valley-Mission Community College District's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. West Valley-Mission Community College District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

## **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

The Board of Trustees  
West Valley-Mission Community College District  
Saratoga, California

### **Report on Compliance for Each Major Federal Program**

We have audited West Valley-Mission Community College District's (the District) compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the District's major Federal programs for the year ended June 30, 2021. The District's major Federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

### **Management's Responsibility**

Management is responsible for compliance with the Federal statutes, regulations, and the terms and conditions of its Federal awards applicable to its Federal programs.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the District's major Federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major Federal program. However, our audit does not provide a legal determination of the District's compliance.

### **Opinion on Each Major Federal Program**

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2021.

## Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE

The Board of Trustees  
West Valley-Mission Community College District  
Saratoga, California

### **Report on State Compliance**

We have audited West Valley-Mission Community College District's (the District) compliance with the types of compliance requirements described in the *California Community Colleges Contracted District Audit Manual (CDAM) 2020-21*, issued by the California Community Colleges Chancellor's Office for the year ended June 30, 2021.

### **Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on West Valley-Mission Community College District's compliance with the requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the *California Community Colleges Contracted District Audit Manual (CDAM) 2020-21*, issued by the California Community Colleges Chancellor's Office. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the state programs noted below. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such procedures as we consider necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

## Opinion of State Compliance

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that are applicable to the programs noted below that were audited for the year ended June 30, 2021.

## Procedures Performed

In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with State laws and regulations applicable to the following:

- Section 411 – SCFF Data Management Control Environment
- Section 412 – SCFF Supplemental Allocation Metrics
- Section 413 – SCFF Success Allocation Metrics
- Section 421 – Salaries of Classroom Instructors (50 Percent Law)

- Section 444 – Apprenticeship Related and Supplemental Instruction (RSI) Funds
- Section 475 – Disabled Student Programs and Services (DSPS)
- Section 479 – To Be Arranged Hours (TBA)
- Section 490 – Propositions 1D and 51 State Bond Funded Projects
- Section 491 – Education Protection Account Funds
- Section 499 – COVID-19 Response Block Grant Expenditures

## Purpose of this Report

The purpose of this report on state compliance is solely to describe the results of testing based on the requirements of the *California Community Colleges Contracted District Audit Manual (CDAM) 2020-21*. Accordingly, this report is not suitable for any other purpose.

FOR THE YEAR ENDED JUNE 30, 2021**

**FINDING #2020-001: 444 – APPRENTICESHIP RELATED AND SUPPLEMENTAL INSTRUCTION (RSI) FUNDS**

**Criteria or Specific Requirement:**

Education Code Section 8152.5 states, "The Controller shall include instructions necessary to enforce this article [Apprenticeship Education] in the audit guide required by Section 14502.1. The instructions shall include, but not necessarily be limited to, procedures for verifying if the hours for related and supplemental instruction reported to each local educational agency by a participating apprenticeship program sponsor, pursuant to Section 8152, are eligible for reimbursement pursuant to Section 8152." Consequently, the audit guide requires auditors to "Select a representative sample of students and verify the hours claimed for RSI, as reported by a participation apprenticeship program sponsor pursuant to Education Code sections 8150.5, 8152, and 79149.3, are eligible for reimbursement, by tracing the hours reported for reimbursement to source documents (i.e. student sign in sheets)."

**Condition:**

The District incorrectly reported apprenticeship hours for several students, resulting in two instances of understatement amounting to 49 hours of understatement and two instances of overstatement of hours of participation amounting to 49.5 hours of overstatement. Taken together, the variances resulted in culminated in an overstatement of 0.5 hours. We note that this is a repeat finding from the prior year.

**Questioned Costs:**

The District's FY1920 Apprenticeship Attendance Report, certified and submitted to the CCCCO was overstated, however there is no anticipated questioned cost due to the underfunded status of the Apprenticeship Education program, which causes valid participation hours to be well in excess of funded hours.

**Context:**

The District reported 44,162 Apprentice Hours of Instruction in 1st Period on the Apprenticeship Attendance Report. We selected 25 apprenticeship students across all three programs, PLM, HVC and VTA. For two of our student selections, we noted an overstatement of participation hours claimed on the Apprenticeship Attendance Report relative to source documents. For an additional two of our student selections, we noted an understatement of participation hours claimed on the Apprenticeship Attendance Report relative to source documents.

**Effect:**

Due to the netting of two instances of understatement and two instances of overstatement identified in our sample, Apprentice Hours of Instruction were overstated by 0.5 hours.

**Cause:**

Clerical error during the transfer of information from the District's third-party Apprenticeship partner to the District's departmental staff.

**WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT  
SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS  
FOR THE YEAR ENDED JUNE 30, 2021**

---

**FINDING #2020-001: 444 – APPRENTICESHIP RELATED AND SUPPLEMENTAL INSTRUCTION (RSI)  
FUNDS, continued**

**Recommendation:**

It is recommended that the District review the methods used to obtain and review Apprenticeship attendance information from its third-party program partners. In addition, it is recommended that the District amend the FY1920 Apprenticeship Attendance Report, which will ensure that if the program is subsequently fully funded, the overstated hours are not erroneously funded.

**Management's Response and Corrective Action Plan:**

Management has noted the finding and has initiated procedures to actively monitor Apprenticeship attendance in conjunction with the program operator. Management has also initiated an enrollment and attendance review at the completion of each segment on this Apprenticeship program. Management will revise the RSI estimate to meet actuals in the first quarter 20/21 report to the State.

**Status:**

Implemented in 2020-21.
