

CONSTRUCTION NOTICE

MISSION COLLEGE CAMPUS CLOSURE

PROJECT NAME: Geothermal Repair Project

ACTIVITY DESCRIPTION: 1. Contractors will be excavating the Geothermal Vault in Parking lot D. After the excavation is complete, pressure testing will take place to identify leaks in the Geothermal System.

SCHEDULE: **March 25th – May 25th 2019**

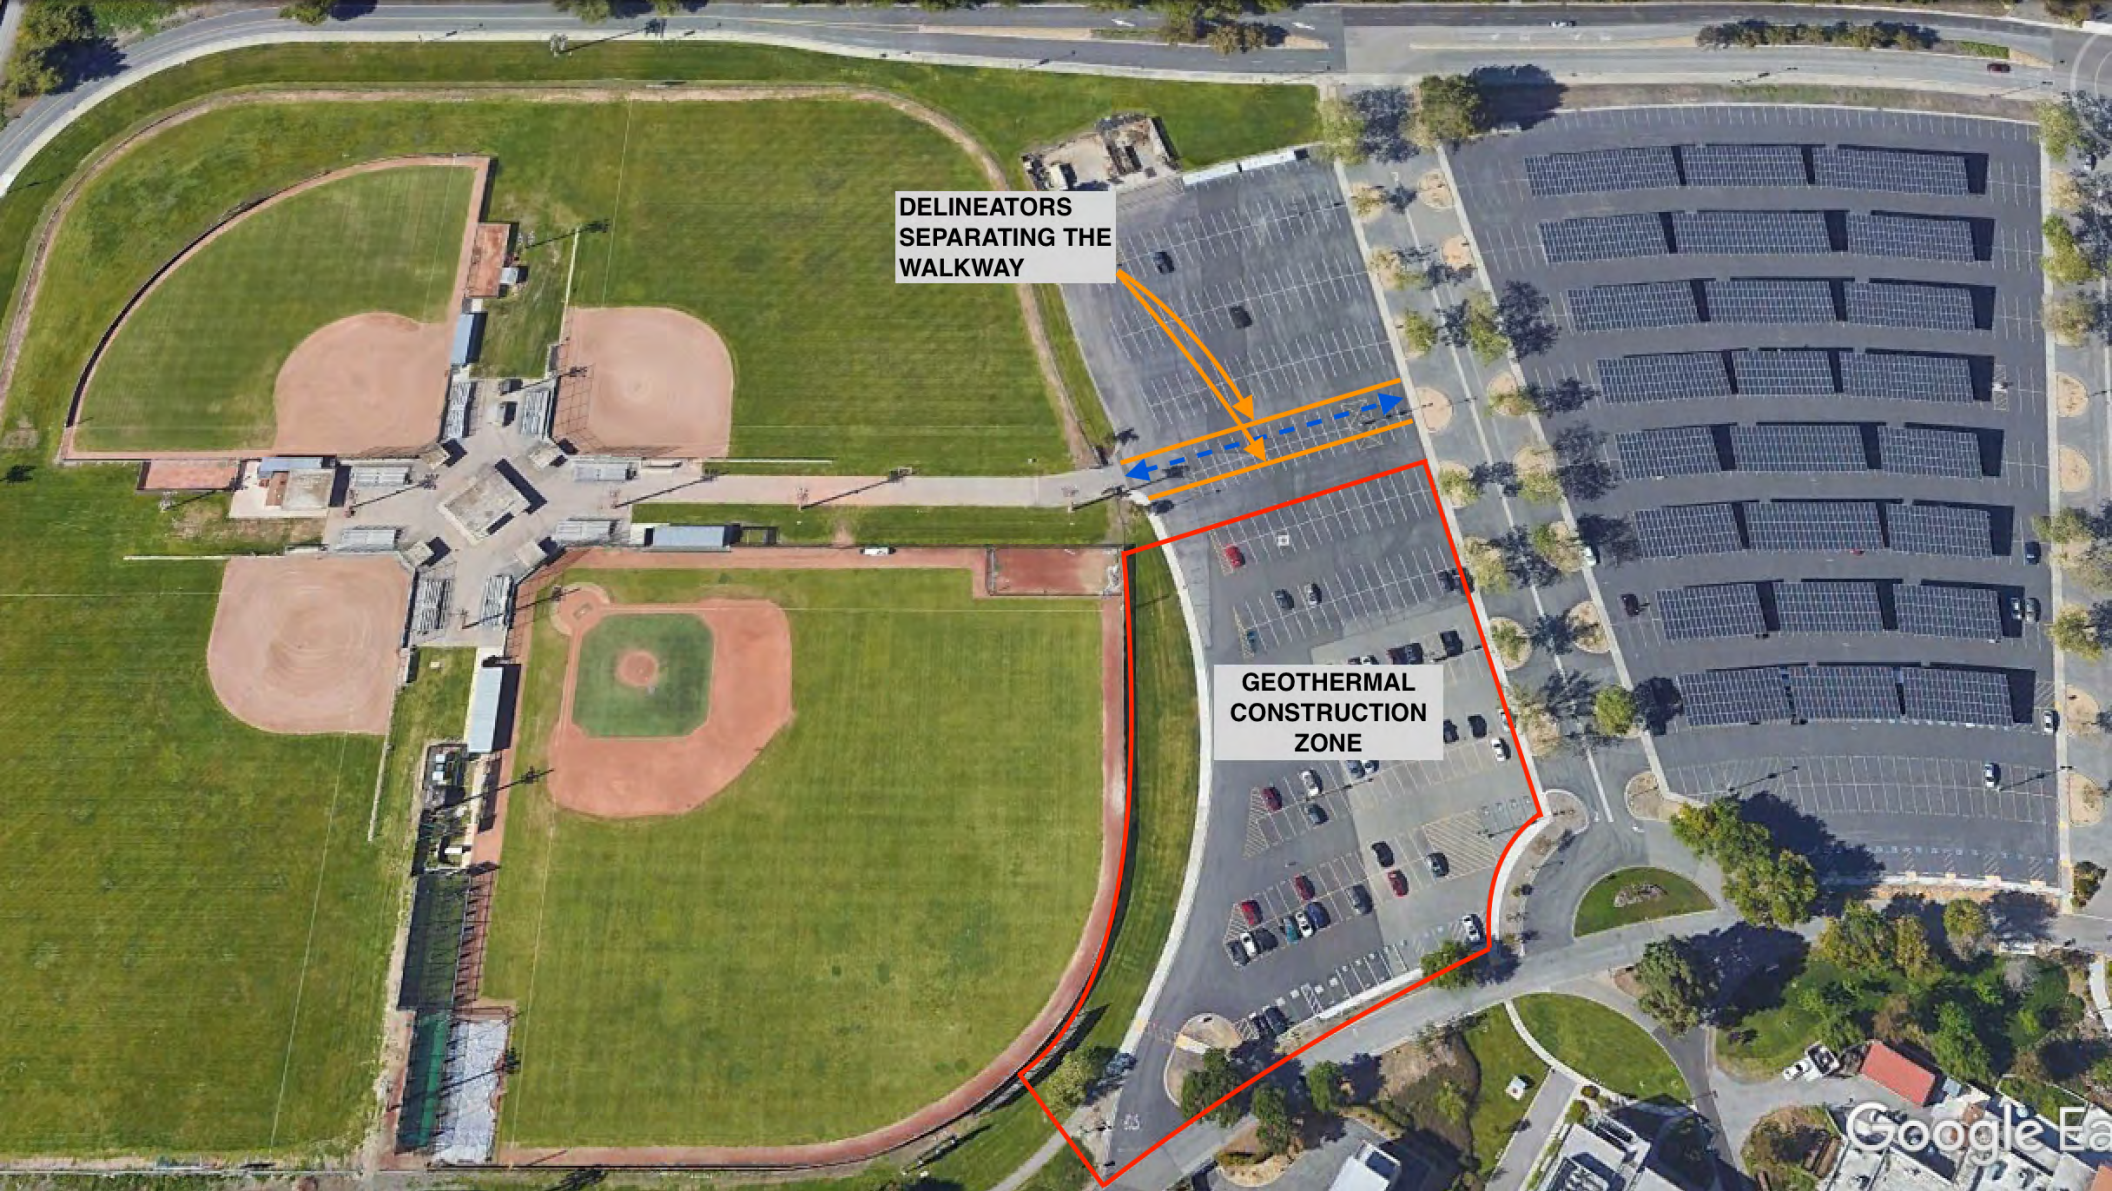

CAMPUS IMPACT:

- 1- Half of Parking Lot D will be closed during this construction period. The first half of the project will take place in the lot closest to campus. This will affect everything South West of the gate at the baseball fields including the EV charging stations. The entire half of the lot will be fenced in, but access to the baseball fields will remain open. Once this half is complete, we will move the fences, and close down the back half of the lot towards the road.
- 2- Starting Sunday Night, March 24th, the front half of the parking lot will be caution taped off for the following days mobilization.

If you have any questions or concern, Please contact the District Project manager at the email or Phone number below.
