

## Assigning a Proxy (Backup Approver)

Approvers are responsible for **setting up** their own Proxies within Banner Web Time Entry. Each Approver must have (2) two or more Proxies who can approve timesheets in their absence.

Review your assigned proxies throughout the year to ensure there is sufficient coverage and to avoid last-minute changes at the deadline.

The Proxy should be able to verify employees' submitted hours and be **required** to be a Full-Time Employee at the same level or higher than the Approver. As a general rule, a Proxy's position should be at the same level or higher than the Approver's.

### What is a Proxy?

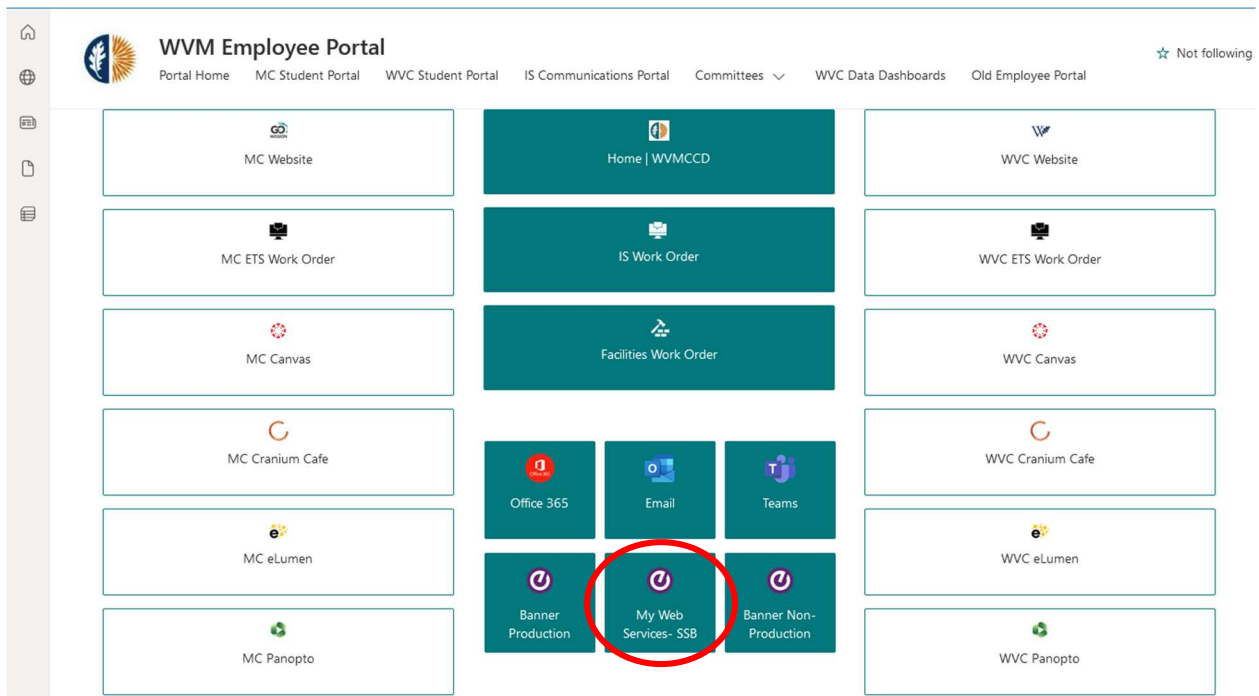

A Proxy is an individual(s) designated by the Approver in the system to act on their behalf. The Proxy will be responsible to: update, change, modify, return, or approve the timesheet submitted by an employee. If you have been designated as a Proxy for an Approver, you assume the role and responsibilities of "Acting Approver."

### Why assign a Proxy?

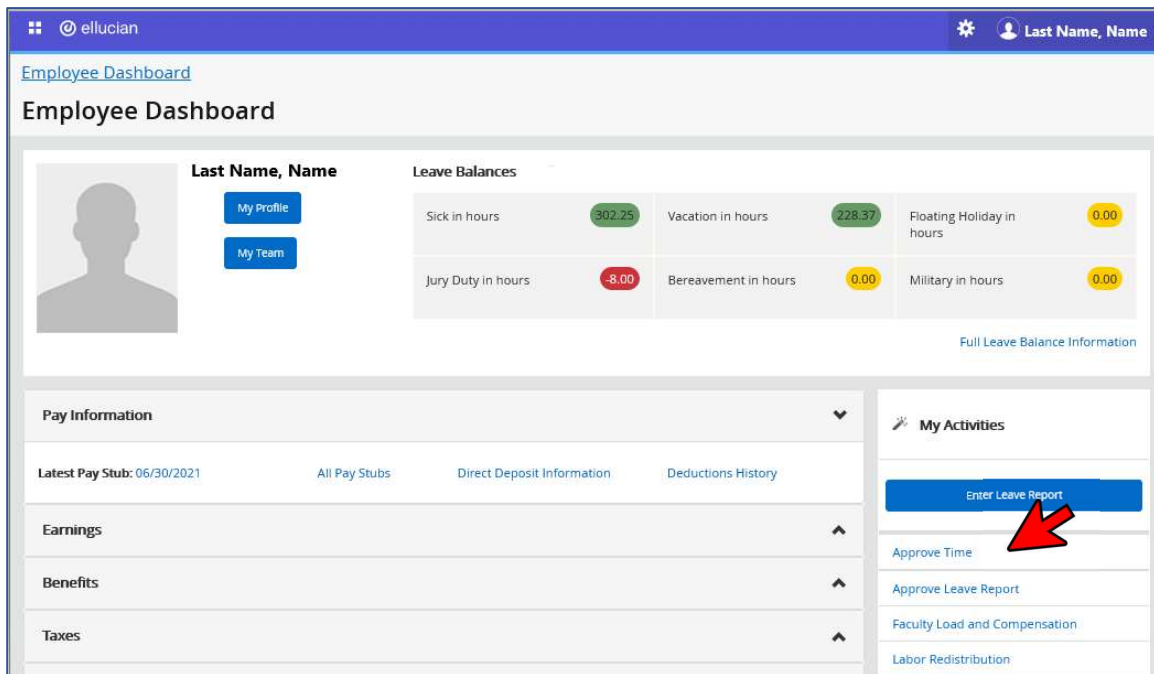

It is essential your Proxy(s) know they have been authorized to act on your behalf if you are absent, especially to approve and correct timesheets by the monthly Payroll deadline. Let your employees know who your department Proxy is, so the employee can contact the Proxy to correct any error on their timesheet.
